PENSION

Appropriation for Next Year Will be \$3,000,000 Less Than Last

VETERANS FAST DYING OFF

Vast Increase in Budget For Army and Navy.

APPROVED BY PRESIDENT

Secretary Daniels Held Conference Last Night With Thomas A. Edison President of the Naval Advisory Board Regarding Recommendation for the Establishment of Library.

(ASSOCIATED PRESS TELEGRAM) Washington, Oct. 15.—The National defense plans of the administration calling for an expenditure in the next fiscal year of more than \$400,000,000 for army, navy and fortifications were completed today.

Secretary Garrison has forwarded his estimate, already approved by President Wilson to the secretary of the treasury and Secretary Daniels submitted his estimate this afternoon, going over the final details with President Wilson this morning.

Secretary Daniels discussed with the president, the question of how many battleships, battle cruisers and smaller warships to recommend each year during the five years for which a program has been mapped out. He and the president reached an agreement, but the secretary said he could not give the figures until later. It was learned however, that the expenditures will be distributed as evenly as possible over the five years.

Reports from Secretary Garrison and Secretary Daniels will be made public within the next few days. The navy estimates probably will be made public tomorrow, and those of the army on Monday.

The plans of the navy, Secretary Daniels admitted, include a large building plan. He said he wanted to increase the capacity of the various government navy yards and do much of the new warship construction in those yards. Some contracts will continue, however, to be given to private concerns.

Secretary Daniels has not asked for \$5,000,000 the sum the committee thought should be spent for a laboratory because such a large sum for this purpose is believed unnecessary for the first year.

Secretary Lane saw the president regarding interior department estimates which will total approximately \$210,000,000 or about \$1,000,000 less than the estimates last year. His estimates include \$9,000,000 for the Alaskan railroad, \$755,000 for the Flathead Indian reservation reclamation project, between \$8,000,000 and \$9,000,000 on other irrigation work; \$2,000,000 less than last year for pensions; about the same amount as last year for the land office, a slight

ARE SISTERS OF WILSON'S FIANCEE

Mrs. Matthew Maury (top) and Miss Bertha Bolling.

increase for the bureau of mine and education, and more money for Indian work than last year, and national parks.

The increase for National parks has been made necessary by the fact that this year more than twice as many people visited the parks than did last year. The European war caused many tourists to visit the parks instead of going abroad.

This was the day specified under the law for submitting the estimates, although there is no penalty attached for failure to do so. Most of the members of the cabinet worked until a late hour last night in order to be ready with the estimates for their departments.

The extraordinary large sum of money which congress will be asked to appropriate for running the government, is due to the prospective big increase in the administration's program of national defense and to the usual conditions resulting from the European war.

The estimated increase for national defense alone aggregates about \$150,000,000, while burdens entailed on account of the war will require an increase of about \$1,300,000 for the state departments, except state, war and navy, and possibly commerce are about the same as last year. Secretary Redfield, it was believed, would ask for increased funds for extending American trade abroad.

Additional governmental revenues will be necessary, either through legislation or a bond issue, if congress approves of the increased departmental expenditures.

President Wilson will go over the estimates with his cabinet next week.

WANTS THE ADVOCATE

D. R. Manning, former manager of the Walkover Boot Shop here, now in Reading, Pa., in the same capacity, sends a check to the Advocate paying his subscription for the paper. "It's hard to get along without the Advocate down here," Mr. Manning says. He states that Reading is in gloom over the defeat of the Phillies in the world's series. Reading fans blame the defeat on the Red Sox outfield and the Boston pitchers, which is placing the blame right where it belongs.

DEMAND

For Resignation of George W. Bope Has Been Withdrawn by Eliot

SUSPENDED SEVERAL DAYS AGO

On Charge of Physical Misconduct in Office

A NEWARK POLITICIAN,

George Hamilton Slated for This Position But if Bope is Retained the Licking County Republican Leader May Have to Be Placated By Another Berth By Willis Administration.

(ASSOCIATED PRESS TELEGRAM) Columbus, Oct. 15.—Industrial Commissioner H. L. Eliot today withdrew his demand for the resignation of George W. Bope as chief inspector of workshops and factories and it was stated at the offices of the commission that Bope probably would be reinstated. He was suspended several days ago pending a hearing on the charges of personal misconduct that had been filed against him.

Bope today was given a hearing before the industrial commission to answer charges of physical misconduct on which was based the request for his resignation as chief factory and building inspector. He had refused to resign, saying the charges did not relate to the manner in which he conducted his official business and consequently were irrelevant to any action for dismissal.

Although formerly a Progressive, Bope worked in state headquarters of the Republican organization during the last state campaign and was appointed to his \$3000 job as head of the workshops and factory division of the industrial commission several weeks ago.

Commissioner T. J. Duffy, Democrat, indicated today that he might not vote for the reinstatement of Bope. In this case it might be necessary to await the return of Chairman Wallace D. Yant before this action might be attempted.

CHILD BREAKS ARM

Kenneth Speaks, son of Mr. and Mrs. Earl Speaks of 65 Fleck avenue is suffering with a broken right arm. The child had been playing in the yard and in falling broke the arm near the elbow. Dr. H. H. Postle was called to dress the arm.

CUTS LEG WITH SCYTHE
Herbert Walton, employed on the James McGonagle farm, met with a serious accident yesterday. He was using a scythe which slipped and cut him across the leg. He came to Newark to have the injury dressed.

AUTO CLUB PICNIC
The members of the Utica Auto Club of Utica are holding a picnic at Black Hand today having motored here from their home town.

Germans and Russ Crippled Captives Exchanged in Sweden

Top, Russian war prisoners leaving train to go to the hospital at Tornea; bottom, German war prisoners leaving hospital at Tornea after their exchange.

Through the good offices of Sweden an arrangement has been concluded between Germany and Russia by which the severely wounded soldiers imprisoned in these two countries, who are crippled for life, are exchanged via Sweden. The exchange station is at Tornea on the Gulf of Bothnia, where the Russian and Swedish frontiers meet. At regular intervals Russian and German nurses arrive here with their wounded charges. The Swedish nurses aid the work by taking charge of the cripples while the exchange is being effected. Then the Russian war nurses who brought wounded German prisoners to Tornea take back their injured countrymen brought there by the German nurses, and vice versa.

ZANESVILLE TO FRISCO BY TELEPHONE

SIMILAR DEMONSTRATION TO BE GIVEN IN NEWARK ON OCTOBER 28.

Ex-Senator Burton Guest of Honor at Annual Banquet Chamber of Commerce.

A half dozen Newark men, Messrs. A. R. Lindorf, P. S. Neighbor, Geo. Hermann, R. E. Moore, W. H. Mazey and C. H. Spencer witnessed the demonstration of trans-continental telephone service at Zanesville last night and attended the annual banquet of the Zanesville chamber of commerce by invitation of the officers of that organization.

The Newark visitors were especially interested in the evening's program as a similar demonstration is to be given in this city at the Newark Merchants' Association banquet on the evening of October 28th.

At Zanesville the attendance was limited to 320 that being the number of telephones arranged at the banquet table. The demand for tickets exceeded the supply and such will no doubt be the case in Newark. Those who wish to attend the banquet and witness the use of the telephone line between Newark and San Francisco should get their tickets

without delay. Call John C. Kries at the New King Co. store or Secretary Haas of the Newark Merchants' Association. The dinner will be worth the price, \$1.00 and the telephone demonstration which will be free is worth more than the dinner.

At Zanesville Ex-senator T. E. Burton gave a patriotic speech, making an eloquent appeal for peace in America but argued for national preparation for defense. Mr. N. C. Kingsbury, vice president of the telephone company, gave an interesting address on telephony, tracing the growth from its invention in Boston 35 years ago to the recent across-the-continent demonstration when the voice of the inventor, Mr. Bell was successfully carried by wire 3400 miles to the ear of his associate who 23 years before had heard Mr. Bell's voice over a phone in a Boston hotel. When Mr. Kingsbury finished his address a moving picture was projected showing the construction of the transcontinental line. When a picture of the Cliff House was shown the 200 people seated in Zanesville actually heard the waves of the Pacific as they dashed upon the rocks and as the noise of the waves was heard the screen pictured the scene at San Francisco. For an hour the telephone line was used to the delight of everybody present.

INJURES SIDE IN A FALL

Ethel Beckett, daughter of John Beckett of Waller street, met with an accident which may result seriously. On Thursday morning she was crossing Hudson avenue near Schimpf's grocery, when she fell on one of the iron rods on the crossings, striking her left side. The rain had made the road slippery, and her side was seriously injured. Dr. H. P. Martin was called and she is slightly improved today.

One Killed, Four Wounded In Melee Over Charleston, S. C., Primaries; Governor Calls Out National Guard

(ASSOCIATED PRESS TELEGRAM) Charleston, S. C., Oct. 15.—Sidney J. Cohen a newspaper reporter was killed and four men shot in a melee that occurred here today just outside the room where the Democratic city executive committee was to meet to canvass the returns of the municipal primary last Tuesday.

W. A. Turner was shot in the right lung and seriously injured; W. E. Wingate received a serious scalp wound; H. L. Wilensky was shot in the arm, and Jeremiah O'Brien, was shot in the ankle.

The committee was just about to be called to order to canvass the returns of last Tuesday's primary at which the trouble was threatened. A fight started in the room adjoining that in which the committee was to meet. The cause has not been determined.

The scuffling occasioned by the fight hardly had started when a fusillade of shots was heard from the committee-room. This continued for several minutes as the committeemen and spectators made a frantic rush to get out.

Policemen were stationed in the committee-room adjoining but no arrests had been made two hours after

the shooting, and as far as known at that hour no one seemed to know who fired the first shot or who kept it up.

The getting for the affair was dramatic.

At the intersection of King and George streets where is situated the building in which the committee was to meet, a large crowd had gathered. The demonstrators of those there had led the chief of police to place a large number of officers there. Up to the time of the shooting, however, this crowd had remained orderly.

THROWN FROM BUS, LITTLE GIRL IS PAINFULLY HURT

On Thursday afternoon little Martha Grace Kear, daughter of Mr. and Mrs. Richard Kear of Greenville street received painful injury when she was thrown from the jitney bus.

The child was returning home from school in the machine and in order to avoid a collision the driver of the bus swerved the machine suddenly. One of the doors is off to accommodate the passengers and the child was sitting on one of the small seats inside this opening, and she was thrown violently to the ground. The accident happened near her home and she was taken there by the driver and a physician sent for. Dr. W. L. Jackson responded. Her arm was badly cut near the elbow, one leg was cut and bruised and her head was cut.

GOVERNOR MANNING ACTS PROMPTLY IN CHARLESTON CRISIS.

(ASSOCIATED PRESS TELEGRAM) Columbus, S. C., Oct. 15.—As soon as Gov. Manning received notice of the shooting he ordered the Washington light infantry of Charleston, under arms, and placed Col. E. M. Rhythe of Greenville in charge of the militia during the absence of adjutant General Moore. The Governor also ordered the Charleston board of control to close the dispensaries.

Governor Manning this afternoon called four companies of the Columbia battalion of militia, under command of Major Merchant, to assemble in their armories, and await eventualities in Charleston.

Later Gov. Manning called the entire second regiment of the national guard under arms to await eventualities in Charleston.

DEATH CAUSED BY ANTHRAX, A RARE DISEASE

AMONG MEN, COMMON AMONG CATTLE, AND ALMOST ALWAYS FATAL

Victim Made Heroic Struggle Aided by Anti-Toxin from Government Laboratories.

(ASSOCIATED PRESS TELEGRAM) New York, Oct. 15.—George F. Stackpole, the lawyer of Riverhead, Long Island, who was stricken with anthrax several days ago, died in Bellevue Hospital early today of heart failure resulting from the poison of the disease.

Mr. Stackpole's death came after a rally which caused his physicians to believe the most serious phase of the disease had been passed and that he would recover. He was conscious until within five minutes before he died and told his wife he realized that death was near.

Until the last few minutes he tried to cheer up his relatives and throughout the greater part of his illness conversed them with hope of his recovery.

The determined struggle made by Mr. Stackpole, who was 71 years old and the unusual nature of his disease common to cattle but rare among human beings, attracted public attention throughout the country. Physicians watched the case closely to observe the effect of the anti-toxin which was rushed here from the bureau of animal industry at Washington to combat the deadly anthrax germ in which 150 cubic centimeters were injected in three or more periods. Following the third injection, decided improvement was shown. Although the physicians were greatly encouraged they warned Mr. Stackpole's relatives that there was danger that his heart would yield to the poison infection of the malady.

Anthrax is an infectious and usually fatal bacterial disease of animals especially of cattle and sheep, and occasionally of man, to whom it may be transmitted by inoculation.

German Destroyer Sunk By British Submarine; Entire Crew Said to Have Perished

Copenhagen, Oct. 15.—A British submarine torpedoed and sank a German destroyer this morning at the southern entrance to the Sound, a narrow strait between Denmark and Sweden, which connects the Baltic with the North Sea. A great explosion followed the striking of the torpedo and the destroyer foundered immediately. A message from Falsterbo, Sweden, which brought news of this incident, adds that another German destroyer and a cruiser which were accompanying the destroyer that was sunk sped to the southward.

Information received here indicates that all the members of the destroyer's crew were lost.

Additional details were given in a subsequent dispatch. According to this version, a German cruiser and three destroyers were engaged with the British submarine. The German craft moved in circles to avoid the attack of the submarine, which was bombarded heavily. The continued for some time, until the submarine lodged a torpedo on the destroyer, which sank with a terrific explosion. The other German warships are said to have retreated.

The submarine rose to the surface and remained on the scene for some time before it disappeared. A sharp lookout from the Danish coast is being kept, but no survivors have been found.

On the western front the British have gained considerable ground, some of which they subsequently lost under the German shell fire. Conflicting claims concerning the possession of Hill No. 70 were ended by the statement of the under-secretary of war in the house of commons that the British official report had been read incorrectly in reality claiming only the capture of (Continued on Page 12, Col. 2.)

SING SING BANK SUSPENDS AFTER EXISTING 5 DAYS

(ASSOCIATED PRESS TELEGRAM) Ossining, N. Y., Oct. 15.—The Sing Sing prison savings bank has suspended payment, after an existence of five days and today the prisoners are mourning the loss of the "token money" they had deposited.

An excess of loans without security followed by unsuccessful gambling by the borrowers wrecked the bank. The plan of using "token money" in the prison was put into effect last Friday, and each prisoner was paid \$2 for two days work on Saturday. Financiers among the convicts promptly started a savings bank and many prisoners deposited their savings.

Warden Osborne notified the prisoners Tuesday morning that they must pay forty cents a day in the "tokens" for their board. There was a run on the prison bank which revealed the fact that its funds had been dissipated by bad loans. The warden ordered the bank dissolved.

A depositors' committee has been appointed to save all possible from the assets and the Mutual Welfare League is expected to put the bank's officers on trial for malfeasance.

Presbyterian Synod Closed Most Important and Highly Interesting Session Thursday

THURSDAY NIGHT.
Much business of a miscellaneous nature was left over from the Thursday afternoon session and the "scraps" were cleared up, when the final session was called. After dinner Elder Emmett C. Baxter delivered his address. The Elder and his Parish Duties.

Rev. William Houston, College Presbyterian Pastor at Ohio State University, Columbus and chairman of the committee on Education and student pastor gave a very interesting address, dealing with the subject as follows:

"There are forty-four colleges of one kind or another in Ohio. Most of these have some kind of a relation to a church. The church was originally the champion of higher education. One-fourteenth of the names appearing in Who's who, are men from Ohio. There may be some connection between the large number of colleges and the number of men who have developed into leaders. The primary object of private institutions of advanced learning is cultural, while the first aim of the State University is industrial

of Congress under which they were by definite specification of the Act established. These private colleges are distinctly Christian in origin and established for Christian purposes. Education and religion cannot be separated. The attempt to do it will damage both.

"A privately endowed college needs about \$4000.00 for every student. Few Ohio colleges have this amount. Though there are forty-four privately endowed colleges, one-half of the students are in State supported institutions. To keep these students under Christian influences is the task the Presbyterian church has set before itself. The plan of sending pastors to State Universities has been demonstrated to be the most statesmanlike move in the Church's history. It has met with universal success. College faculties and trustees are pleased with the influence for good and the students welcome a representation of the church.

"It is inexcusable cowardice for the church to retreat from the professional and trade schools and abandon

Expert Advice For the Automobile Owner

Queries and Replies Covering Matters of
Importance to the Man Who Runs a Car

Can you tell me the best way to put
oil in the cylinders for removing
carbon without removing the spark
plugs?

The only way you can pour kerosene
into the cylinders is through some open-
ing, and the only openings provided in
the ordinary motor besides petcocks
are those occupied by spark plugs and
valve stems. If you do not want to re-
move these then you will have to feed
the oil through the air intake of the
carburetor while the engine is run-
ning. The oil will give best results
if poured into the cylinders when the
engine is hot and allowed to remain in
the motor for at least ten hours. About
one-half a tumblerful should be poured
into each cylinder.

What is the advantage of the two
point magneto.

The two point magneto feeds to two
sets of spark plugs, causing two sparks
to occur in a cylinder at the same
time. This increase in heat value of
the spark causes increased flame propa-
gation or flame spreading, and hence
better combustion and more power is
obtained.

When a carburetor floods, what means
should one take to rid it of such a con-
dition?

Carburetor flooding usually is caused
by a gas logged float. When this con-
dition exists the float becomes so heavy
that it no longer floats on the gasoline
and thus permits too much of the liq-
uid to enter the bowl. Dirt under the
float valve will cause the valve to re-
main open and thus permit gasoline to
flow at all times, filling the bowl and
causing the carburetor to flood, as it
is called.

Why is it better to turn the valve al-
ternately when grinding than to turn it
completely around?

It is better to oscillate the valve than
to turn it around completely for the
reason that in the latter case there is
a chance of grooving the seat with the
grinding compound.

Can a vibrator be converted to a non-
vibrator coil for use with a low tension
magneto?

A vibrator coil could be used as a
nonvibrator coil by removing the vi-
brator mechanism entirely and taking
the primary and secondary terminals
and attaching them to their proper
places. Another way would be to
short circuit the vibrator terminals.
The coil then virtually becomes one of
the nonvibrator type. This practice is
not recommended, and in connection
with a low tension magneto it might
result in considerable trouble. There
would be little gained, as the magneto
already has an interrupter and is de-
signed for use with a nonvibrating
coil.

Why is it advisable to space the pis-
ton ring gaps in gas engines diagonally?

It is advisable because the escape of
gas is hindered more than if the
rings were cut straight.

I have a tap in my four cylinder mo-
tor. I am sure it is none of the bear-
ings, but rather a piston slap. This
tap does not take place until the motor
is warmed up and pulling some, and as
soon as the throttle is closed it stops.
Climbing hills does not increase the in-
tensity of the sound. Can you explain
this? I have run the car only 4,000
miles.

If you are sure the motor has what
is known as a piston slap it is due to
either a loose piston, worn cylinder,
motor operated with spark too far ad-
vanced or too much overload on the
engine. A piston slap refers to the
piston striking against the wall of the
cylinder. Such a slap can be heard if
the throttle is opened too wide sud-
denly while the car is going very slow-
ly on high. It can be heard if the
spark is advanced too far while the
engine is pulling up a steep grade. It
is hard to tell from your diagnosis
just what part is causing it. It may
be a valve slap. Such a slap sounds
very much like the faces of two pieces
of very flat metal striking each other.
It hardly is possible that there is a
loose piston or worn cylinder in a car
operated for only 4,000 miles, and for
this reason we think it is a valve slap,
the tapping of some loose part about
the motor or a spark knock. If it is
a valve slap it may be removed by
grinding in the valve or perhaps turn-
ing the valve around and giving it a
new seat. If a valve stem is bent you
will have to have it straightened or
get a new valve.

Can you advise me how I can lay
linoleum on my running boards?

If the running boards are made of
metal with small raised portions you
either will have to use very thick ma-
terial or place a section of wood down
and then attach the linoleum to it. If
thick linoleum is used it will be nec-
essary to fasten it to the board at pos-
sibly eight different places. The board
must be drilled and bolts passed
through. Use large washers under the
bolt heads so as not to cut the linoleum.
In using a wood backing you can bolt
the wood to the board and later fasten
the linoleum down with neat brass
nails.

My engine seems to backfire or ignite
the charge as it goes into the cylinder.
The spark plugs have been out recently
and are in good condition. The bat-
teries are new and the breaker points
are set up as close as necessary in order
to give a good spark at the plugs. What
is the cause of the backfiring and the
remedy?

It appears to be a case of a carbon-
ized motor. Misfiring and overheating
usually are good indications that there
is a carbon deposit on the cylinder head
and piston. Small protruding particles
of this carbon become red hot and
ignite the charge the moment it enters
the combustion chamber. When the
car is moving rapidly the misfiring
may not be so aggravated, but when
operating slowly or possibly idling the
misfiring will be in evidence. Check
up on the carburetor adjustments. Al-
though carbon will cause heating, a
rich mixture will show the same re-
sults.

Which give the more power, light or
heavy pistons?

Lighter pistons are better than heavy
ones for obtaining more power.

My car has 3½ by 3¼ bore and
stroke. What effect would it have to
put a one-eighth inch plate on the end
of the pistons? Would one-fourth inch
be too much? Would putting one-
eighth inch plate between the crank
and crank case and one-fourth or three-
eighths on the end of the piston increase
the power any appreciable amount?

By attaching a plate to the top of the
pistons you would decrease the size of
the effective combustion space and
thus increase the compression and
power. By shimming up the cylinder
casting you would tend to do just the
opposite—that is, you would increase
the size of the combustion chamber
and thus decrease the compression and
power. A one-fourth inch plate would
be too thick. If you use any at all
take a one-eighth inch plate of light
material, such as aluminum alloy.
You would put extra strain on the
parts by increasing the compression,
but the motor you have can stand a
little excess.

Is there any harm in shifting gears
over railroad tracks or rough roads?

Gear shifting while crossing railroad
tracks is poor practice for the reason
that the engine may be stalled and dif-
ficulty had in starting it again. Many
fatal accidents have occurred because
of the engine stalling on the tracks.
There is no harm done to the mecha-
nism in shifting either on the tracks or
rough roads any more than there is in
shifting on good roads.

My car skips every time the throttle
is changed, and no amount of adjusting
will stop it. I had the car torn down
and thoroughly overhauled, but the car-
buretor is still troublesome. What can
I do?

The first test you should make is to
ascertain whether or not you have any
leaks around the intake manifold—that
is, between the engine and the mani-
fold and also between the mani-
fold and the carburetor. When the car
is running idle see that there is no
gasoline leaking.

Should you find that there are no
leaks it is advisable that you use an
exhaust sleeve or drum around the ex-
haust manifold flexible tube running to
the air bend in the carburetor, as by
using this hot air you are able to keep
the heavy gas from precipitating on
the walls of the manifold and from
running back to the carburetor when
the car stops. With the extremely
heavy gasoline which we are now get-
ting, in order to assist in the vaporiza-
tion and to hold this heavy gasoline in
suspension, it is desirable to use hot
air through the low speed air opening.
If these adjustments are followed and
there are no leaks there should be no
further trouble.

How often should the crank case be
drained and cleaned out with gasoline?

With a new car this should be every
500 or 1,000 miles, and thereafter ev-
ery 1,500 miles will be sufficient.

Does an overhead valve motor give
more power than a T or L head? Is it
possible to get more miles per gallon
out of gas with an overhead valve mo-
tor?

It is claimed that a valve in the head
motor of a given size, weight and man-
ufacture gives more power than an L
head or T head of the same size, weight
and manufacture. However, this is not
always true. It is difficult to get two
motors in L head or T head and a
valve in the head which show the same
design with the exception of the valve
arrangement. It is possible that a T
head motor of a certain size has more
power than a valve in the head of the
same size, owing perhaps to the intake
manifold design, the bearing design
and weight of the various reciprocating
parts, etc. In order to answer your
question definitely it would be nec-
essary to make actual tests of three such
engines. In a number of tests per-
formed in the past the valve in the
head had shown up best, and many
engineers claim that type to show at
least 20 per cent more power than the
others named.

Quality Furs

A Showing of New Garments That Surpasses Anything Ever Before Shown by Us And Prices---They're The Decisive Argument

Our early showing of Fall and Winter garments
has been augmented with hundreds of clever new
styles that just arrived this week. Decidedly new de-
signs that are quite different from anything else be-
fore shown. They represent to the smallest detail
the final decree of the Fashion World. You will be

pleased with this showing and it will be a pleasure
for us to have you come and see them. Prices are ex-
tremely low, due to the fact that our buyer made
many advantageous purchases during his recent trip
to New York City. Let us have the opportunity of
proving conclusively to you the supremacy of this
store. There will be no better time than tomorrow.

Wonderful New Suits \$15.00

EVERY ONE A \$2.00 VALUE.

We have offered some exceptional garments at this price, but
never anything to compare with these suits that have just arrived.
We bought them at a special price or it would be impossible to sell
them at such a low figure. Included are the new braided and fur
trimmed models tailored from the finest all-wool poplin. The
styles are varied including the mannish tailored effects, half-belted
and full belted styles, loose box coats, etc. All linings are guaran-
teed for two season's wear and every little detail of tailoring is as
carefully looked after as in suits selling at twice the price. All new
shades are here including Black, Navy, Joffree Blue,
African Brown and Russian Green, sizes run from
14 to 46. The best \$20.00 values,
choice

\$15

FROM A WOMAN'S POINT OF VIEW

I strolled back to the Cloak
department the other day merely
as a casual observer, but it was
a matter of only a few moments
until I was one of the most in-
terested persons in the place. It
was the new winter coats that
caught my attention—really
they're beautiful and hundreds of
them too. I didn't think a store
in Newark carried such a wonder-
ful stock. I can more readily un-
derstand now why Davies do such
a phenomenal garment business.
No matter what style one wishes
(providing of course it's this
season's vogue) it can be found
there. First of all there is a com-
plete display of Salt's Fur and
Pile Fabrics and truly they are
the most beautiful garments I
have ever looked at. Next, in
prominence are the soft tone mix-
tures, subdued in color, beautiful
in pattern, then come the great
Army coats that will appeal to
the lady who wants something
distinctive, yet will stand the
strain of every day wear. I have
enthusiased over this showing ever
since I have seen it and I advise
those of you who appreciate styl-
ish garments at really moderate
prices to make all haste to Davies
and I know your expectations will
be more than realized.

MOVABLE SHIELD FOR ADVANCING TROOPS.

Armored Protector Invented by Englishman for Use in Roads or Over Other Flat Ground.

THIS bullet-proof shield has been submitted to the British war office by its inventor. He says his device will protect infantry wherever it can be got into the firing line, and is especially valuable to those engaged in approaching barbed wire entanglements, cutting barbed wire. It is claimed that eight good marksmen behind one shield could more than equal in effectiveness eighty men beginning action at 500 yards over an extended front of fifty yards. The manufacturers of the steel guarantee that a plate five millimeters thick is bullet-proof to fifty yards against the service rifle with service charge.

Among the most inaccessible of decorations is the Grand Cross of the Russian Order of St. George, founded by Catherine the Great in 1763. In all its history of more than 150 years there have been but four Russians to receive the grand cross. The first was the Empress Catherine herself, who assumed it ex officio. The late Grand Duke Michael Nikolaievitch, having received the inferior grades in the Crimean and Caucasus wars, was awarded the grand cross for his achievements as commander in chief of the Russian army in Asia Minor during the war with Turkey in 1877. His brother, Grand Duke Nicholas Nikolaievitch, was on the same occasion elected a knight grand cross of the order for his victorious leadership of the Russian forces in Europe to San Stefano, within sight of the walls of Constantinople, while Czar Alexander II was persuaded by the knights of the order to don its grand cross on the occasion of the celebration of the centennial of its foundation.

Many remarkable Nerv-Worth endorsements have been given by Newark's grateful users. Among them was one by R. E. "Bob" Forgraves, the well known auctioneer and dealer in jewelry and household furnishings, which is given below. What Mr. Forgraves said has turned many a skeptic into a Nerv-Worth purchaser. These are his words:

DRUGGIST EVANS DID A GOOD TURN

When He Sold Auctioneer "Bob" Forgraves That Bottle of Nerv-Worth.

"I was very nervous and run-down at times so nervous I could not work, could not attend to my business and could not do any writing. Have tried all kinds of remedies. Any kind I saw advertised I would buy I never found any relief or any benefit from any medicine. I bought a bottle of Nerv-Worth from Mr. Evans at his drug store. After using it about three days I'm feeling like a new man. No nervousness. Can write better than I have for years. Feel better in every way I recommend Nerv-Worth to my friends and want my friends to ask me about it."

Buy Nerv-Worth at the Evans drug store, Warden block. Cheerfully guaranteed, \$1.00 a bottle.

Evening Things Up.
"Going to stretch your legs?" we asked the man who supports thirteen relatives.
"Only the other one," he replied in explanation—Exchange.

Tit For Tat.
"Until now, sir, I have never been forced to ask you for a loan."
"Until now, sir, I have never been forced to refuse you"—Philadelphia Ledger.

Break, Break, Break.
"He's suing the company that constructed his artificial limbs."
"On what grounds?"
"Non-support"—Buffalo Express.

Read the Want Column tonight.

OHIO STATE GAME IS BIG BATTLE OF LOCAL INTEREST

Local interest in college football is centered tomorrow in the contest between Ohio State university and the University of Illinois, which will be played at State field, Columbus, tomorrow afternoon. A large number of Newark people will attend the game. It is one of the important contests of the western conference season.

Denison is playing Wittenberg this afternoon to give the members of both teams as well as the students an opportunity to see the State-Illinois game tomorrow.

The high school boys are scheduled for an important contest with the Mansfield eleven, the outcome of which is uncertain. Newark has had no real football game this season and it is unfortunate that the team is compelled to meet such a strong opponent the first time out.

Among the more important games in Ohio scheduled for tomorrow are these:

Cincinnati vs. Kenyon, at Cincinnati.

Wooster vs. Otterbein, at Wooster.

Case vs. Michigan, at Ann Arbor.

Wesleyan vs. Reserve, at Cleveland.

Ohio University vs. Muskingum, at Athens.

Mt. Union vs. Hiram, at Alliance.

Ohio State vs. Illinois, at Columbus.

THIEF IS LAME AFTER WESLEYAN GAME SATURDAY

Granville, Oct. 15—Minus the services of Thiele at end, Denison is awaiting the assault of Wittenberg gridiron forces here today. It is not likely the two teams will meet on even grounds, as the field has become rather soggy under the reign of J. P. and the surface is likely to be something not quite on the level.

Coach Livingston has driven his men hard this week to break them into condition for the hard games which start with Cincinnati next week. Having displayed many faults at Delaware a week ago that should not have been open to public inspection, Denison has buckled down to real football work—all but Thiele.

The big end is out of the game with a bad leg, injured in the Wesleyan combat.

There is considerable indecision around headquarters concerning the Denison line. It is not at all satisfactory at present. Lacking teamwork and seemingly having the wrong combination, much thought is being given to a better combination.

Critz and Clary, who have been showing up to advantage in practice, will likely replace Willis and Meredith at tackles against Wittenberg. This will be a radical change. Critz has been subbing at tackle and Clary has been playing guard. Shock will play left end in Thiele's place.

Ancient Surgical Instruments.
A complete set of surgical instruments was found not long ago by men digging in a scrap pile in Cholophon, an ancient Greek city. In spite of the fact that they were used about 2,000 years ago, there is not much difference between them and the implements that are poked into the anatomy of a modern man.

In the set are small knives with handles of decorated bronze, a metal which the Greeks thought was especially healing. There are also several pairs of forceps, one of them used to extract the heads of arrows and lances from wounded warriors. Another instrument is for the drilling of holes in the bones of the skull; another for cauterizing the flesh. Besides these are vessels for cupping and bleeding, a small covered bronze box for delicate instruments, a slab of stone for mixing certain drugs and a pair of scales which still balance perfectly. In addition to these there is a handsome purple glass beaker, probably the drinking cup of the unknown surgeon who made use of all these instruments.

The opportunities of gaining knowledge in the province of Ontario are great. There are, including kindergarten, institutes, and continuation classes, 6,312 public schools—all free.

Appealing Clothes For Men and Young Men

HERMANN THE CLOTHIER.

"The Store of Newark, Ohio, Where Quality Counts."

Natural Pottery.
Excellent natural pottery is manufactured by nature in the case of a certain cactus. Woodpeckers are apt to excavate nests in the trunk and branches, and in order that it may protect itself against these incursions the plant exudes a sticky juice, which hardens, forming a woody lining to the hole made by the birds. Eventually the cactus dies and withers, but the wooden bowl remains.

Dodging Trouble.
"What's the matter?"
"My wife says I don't know how to handle the baby."
"I wouldn't get muffed over that, son," said the older man. "Take my advice and don't learn."—Louisville Courier-Journal.

A theater manager in Hungary sells seats in accordance with the size of his patrons, the shorter being seated in the front rows and the taller behind them.

New York City's flock of sheep was sheared on a recent day and yielded about 720 pounds of high-grade wool. There are 60 of them pastured in Central Park.

The nearer the prices of war stocks get to the top, the stronger the desire of the lambs to buy.

The people of Panama America don't have to travel to the snow belt to enjoy coasting now. All they have to do is to sit on the Culebra Cut.

The ball players now have come to the time of year when they don't attract any more attention than mere congressmen or cabinet officers.

The Turks ought not to kill off another hundred thousand Armenians merely to show they don't care a hang about the protests of the United States.

So far as heard from, no college student is ever carried out of the class room on the shoulders of his fellow students because he won a literary prize.

If the American-Tribune cares to pursue the subject further we shall be glad to tell just where Mr. Slabaugh's farm is located, how much he paid for it, why he bought it and the size of this year's crop.

The artist in the newspaper office whom you see drawing so carefully and scientifically is not so likely to be making a war map of the Balkan fighting, as showing the situations through which the world's baseball series was won.

Church Social Life.

As the autumn season comes on, the churches are formulating plans for social life. The machinery for this becomes more elaborate each year. There are Boy Scouts, Girls' Clubs, young people's nights, and general socials and suppers for all ages. The people who canvass for food, set tables and wash dishes, are honored for their unselfish devotion. They do hard work. But probably if all this life was to stop they would find it very tedious hanging around home.

This social life at the churches brings together a lot of people who otherwise would be very lonely. In most towns today population shifts rapidly. People do not live and die in their tracks as they used to. A large share of them are always strangers in some new community. They long for companionship.

The old time church social was not very attractive to these lone some folks. People sat around in rows and tried to smile. Awkwardly and laboring under an overpowering sense of duty, they went over to new people and talked about the weather.

Strangers in a new place make real friends, only by entering together into some form of work or diversion. One would get better acquainted in half a dozen rehearsals of an amateur play than by attending sit-around socials five years. Games are equally effective. The deacons and the ministers are becoming convinced that you can't attract people merely by offering jackstraws, riddle-de-winks, and auth-

ors. Some churches go farther than others. But as a general thing, any game that is legitimate for a Christian to play in his home is legitimate for the church parlor.

When strangers come to a new place, they must expect to go a little more than half way. Some of them will attend a church two or three times and then quit because no one called on them or scarcely any one spoke to them. If they will signify their desire to perform some service, instead of seeking merely to receive attention, they will make friends fast enough.

Women As Tramps.

According to newspaper reports, women tramps are becoming quite numerous in the states west of the Mississippi. Dressed in men's clothes, they are jumping freights and living a regular vagrant life.

The finer sort of women are entering all fields of labor. Similarly the coarser types of the sex will break down the barriers in their own way. Women tramps are a manifestation of idleness and vice that besegues no good.

If this tendency becomes general, it will be even better realized that there is too much leniency in dealing with the tramp evil. Vagrants have too easy a time riding up and down the country for nothing. They seem to feel that freight trains were created for their own special benefit. The railroads do not dare cope with them. If women are enjoying this vicious vagrancy, it is about time to sit down on all these disorderly rovers. If men and women will become "tramps," let them really tramp it over the highways, instead of infesting the railway lines.

Who Is On America's Side?

(Chicago Herald.)
Then Moses stood in the gate of the camp and said: "Whoso is on Jehovah's side let him come unto me."
President Wilson's words to a patriotic society of women on Monday are a challenge to all American citizens who permit their thoughts or feelings about other countries to sway them to speech or action not ruled by the heartfelt conviction: "America First!" No other construction can be put upon such phrases as these:

America has a great cause, not confined to the American continent; the cause of humanity itself. I look forward to the necessity in the years which are immediately at hand of calling upon every man to declare himself, where he stands. Is it America first, or is it not? I am not deceived as to the balance of opinion among foreign-born citizens, but I am in a hurry to have a line-up, and let the men who are thinking first of other countries, stand on one side, and all that are for America first, and all the time, on the other side.

Within the last year we have felt again perplexities of our nation's youth which a few years ago we could not believe would ever recur. We have become painfully conscious that our assimilation of some elements of our diverse population has not been as perfect as supposed—that the antagonisms, prejudices and passions of that old Europe have not been completely left behind by some who came professing to believe in America above all other lands. We have found, and the finding has been a grief that some among us have not thought first of America.

With foreseeing perception of the nation's need of certainty of distinction between the loyalty that is unreservedly of the heart, mind and soul, and the loyalty that is of the lips, with a mental reservation and a soul of rebellion, Woodrow Wilson stands up as did Moses of old and demands: "Who is on America's side?"

No real American feels any doubt about the answer. No real American is any more afraid than Woodrow Wilson "upon the test of America First" to take a census.

for he knows that "America First" came here because they believed America, and that having "bought" this privilege with a great price, they cherish it even more than some of us who were born into it.

Yet is it fit and timely that the challenge should be given. We need to search our neighbors' hearts; some of us need to search our own. The time may come, it may be near at hand, when we shall have to say: "He who is not with us is against us!" That we may so say with justice and without certainty, all true Americans welcome the issue their President has raised.

There will be no paltry and peevish censures of Woodrow Wilson for demanding the line-up. It disturbs little schemes of political water carriers. But the challenge is given with the president statesmanship that fears not to "sound forth a trumpet that shall never call retreat. As its voice cleaves the air and the issue is made plain, we can feel the American ranks close and see such few as may not be on America's side seeking concealment.

Knowledge and Health.

(New York Herald.)
The organized campaign for the spread of knowledge as to tuberculosis has already borne abundant fruit. The death rate from consumption in the days when we preferred not to have it much spoken of was one in seven of the population. Now, after due publicity, it is but one in nine. That experience ought to be a lesson for other diseases, yet there is an unwillingness to face frankly the problems of the more fatal diseases and a disposition apparently to look upon their public discussion as something of an intrusion.

In recent years a similar experience has come even with regard to that dread disease, cancer, whose death rate over most of the civilized world is on the increase. The American Society for the Control of Cancer has just published the results of a public educational campaign with regard to that affection in Portsmouth, England, which was the first city in the world to try what the effect of publicity would be on the cancer death rate.

The result has been encouraging. For twenty years before 1912 the death rate from cancer in Portsmouth rose from less than seven to over nine per 10,000 of population. Two years ago a publicity campaign, calling attention to the earliest signs of cancer and the necessity for treatment just as early as possible was begun. The deaths from cancer last year were, with an increase of population one-seventh fewer than the year before.

Spirit of the Press

Let in the Sunlight.
We are all too apt to shut out the light in our modern houses, because we do not realize that sunshine, but frequently more in negative semi-darkness. There is a closer connection between the vivifying power of light and the life-force than we may perchance know. Let us try the experiment, and see the effect of light and cheer in dull interiors and upon depressed feelings. There need not be a glare; the light can be regulated to suit changing conditions of the day or season. It is one of the interesting problems in the adjustment of window draperies. —Countryside Magazine.

High Schools' Province
High schools are all right, but the common school system was not established to make them more important than the secondary schools. In the latter is where the great bone and sinew of the country, the responsible citizenship of the nation, is educated and this duty should not be weakened by centralizing all attention to Latin and algebra. In the secondary and elementary grades is where the public school system was established, and to neglect that for the classics and higher branches is treason to the common school purpose. The high school is a part of the system, and a noble part, but some alleged educators seem disposed to make it the only part. If partially is justifiable anywhere, it is in the secondary schools, where there is every advantage, in the instruction of the common branches, and under the influence of a worthy teacher, to manufacture real, outstanding citizens. That is what taxes are paid for.—Ohio State Journal.

Lawless Europe.
When it was found some time ago that in spite of universal treaties there was nothing to prevent the violation or destruction of the mails by belligerents, it naturally followed that communication by cable was exposed to similar risks. Germany has sent mail ships to the bottom without notice. Great Britain and France have rifled the mails that passed through their hands. It was inevitable that cable correspondence should be subjected to the same outrages.

The American complaint against Great Britain is not aimed so much at the obvious espionage of cable despatches as it is at the illegitimate use that is made of the information which they contain. To plead war as an excuse for interfering with American commercial enterprises, for diverting American merchandise orders and for appropriating American money is to garnish piracy in a new fashion, but the piracy is there none the less.

Our diplomatic controversies with the fighting nations of Europe proceed upon the theory that there is an international law that they observe. It is a false premise. The great body of the law of nations established by custom, consent, if not always by direct obligation, is no more binding in Europe today than it is in the villages of the Yaquis. —New York World.

Off Agin, On Agin

STRICKLAND W. GILLMAN
The Bureau Drawer.
I've just "cleaned out" the refuse from an ancient bureau drawer. And left more rubbish in it than was in the thing before—
At least it seems more crowded than it was when I began;
This cleaning-out performance is no business for a man.

I found a lot of papers that I didn't know I had;
A letter from my mother when I was a callow lad.
The contents weren't important, as we count such things today.
But something stopped by motions when I'd throw the thing away.

A photograph that spoke to me in language that we two
Or all the human beings on this bulky planet knew:
And other things—I worked at it a quarter of a day,
And 'mid the trash I couldn't find a thing to throw away.

And so I gently closed the thing and went to work again
At things of more importance to my busy world of men.
So when my partner asked me if I'd cleaned the bureau drawer, I nodded "Yes," nor told her it was fuller than before.

Finnigan Filosophy.
Any pinhead kin criticise th' administration, but it would take a giant t' improve th' way things are handled by th' man on th' job, so it would!

Unrestricted Immigration.
"And what has this warm invitation from America to all the world, to come and have a home with us, accomplished for us?" asked the eloquent lecturer, who didn't expect anybody else to do any of the talking. "In making us have to fight like the dickens to keep our ammunition mills going when we wanted to prepare for a national defense," squeaked a man whose judgment was better than his voice.

Shakespeare's Ignorance.
When Shakespeare said, "This is the most unkind cut of all," he never heard of Culebra and her land slides.

A Great Institution.
The editor-in-chief is the only human or any other form of vertebrate who can settle any question to his entire satisfaction with a few strokes of his trusty lead pencil, pen or type-machine.

Mother's Sorrow.
"Why is your mother so unhappy, daughter?" "She was appointed one of the board of film censors two weeks ago, and there hasn't been a single indecent picture submitted since."

An Allies' Sentiment.
"We are scared of Zeppelins, but O-U-boat!"

Owning Up.
We all love money, so why the bluff? We're always needing the ding-donged stuff.

The Order that Should Be Observed.
(a) Wanted—Men to learn chauffeur's trade, for \$6, in two lessons.
(b) Accident insurance, most reliable, at low rates.
(c) Shipping funerals, \$75 and up, with six carriages.

The Toboggan.
Ten years ago, he was "a prince";
Five years ago, "a source";
And now he's ballyhooing for
A "movin'-picture" house!

He Knew Engines.
Sloppy Motorist to Guest—How do you like my new car? Motorwise Guest (listening to motor)—you must have bought that motor by the pound.

Great Disappointment.
"How were the two new flims?" asked the big sister, as her big brother came strolling mournfully in at eleven. "Horribly decent," he replied bitterly.

Different.
"Have you any butter in print?" asked the bookworm. "Here's some in bulk—taste it." He does so, then sadly shakes his head. "No, I'm afraid that has been out of print for a long time. I shouldn't be surprised if it was a first edition."

Pointed Observations

Still that San Francisco physical culturist who says the hill-climbing girls of his city have the prettiest legs in the world can hardly have seen them all no matter how hard they may have tried. —Cleveland Leader.

No doubt J. Ham Lewis canceled his passage two hours before the boat sailed because he had a premonition that his red whiskers would be the first thing a submarine commander would see.

If Lord Kitchener is correct when he says the Germans have "shot their last bolt," it may not be out of order to ask him when he is going to commence shooting his.—Detroit Free Press.

Human nature is pretty much the same the world over, including Mexico and probably when we recognize old Garanza, if we ever do, it will never occur to him that it was only because their wasn't anybody else.—Columbus (Ohio) Journal.

Skirts, we learn from a casual perusal of the fashion sheets, are to be shorter than ever this fall. As we may have hitherto remarked, this is no year for a blind man.—Topeka Capital.

What gets our goat in our spiritual life is that we constantly meet

The Wise Fool.
"Electricity is the world's greatest force," observed the sage.
"Oh, I don't know," responded the fool. "What is the matter with electricity?"
"We sh'd worry!"—Tucson (Ariz.) Star.

Names Is Names.
Getz Money lives at Greenback, Tenn.

Things to Worry About.
"Corryw!" is the Welsh word for "feet."

Our Daily Special.
A cloudy sky never bothers a clear conscience.

Luke McLuke Says:
It usually costs you money to get rid of the things you get for nothing.
A girl may marry the man she loves, but she doesn't always love the man she marries.
If you want to put a woman in a happy frame of mind just tell her that she is a picture.

Every now and then father gets so he believes that mother isn't happy unless she has something to be mad about. Judging by the clothes some men wear, it is very evident that they are bound to be heard from.

You can find all sorts of men in the world. But you can't find one whose job is harder than he thinks it is.

When we want people to listen to reason we mean that we want them to listen to our version of the story.

A man has to be a pretty ornery husband when his wife isn't willing to give him credit for his good intentions.

Some men remind you of dogs. Their notion of being enterprising is to bark about nothing and keep on barking.

A common, ordinary heathen often wonders how a preacher relieves his mind when he steps on a wooden collar button with his bare feet.

Lots of men who have large, fat bank accounts and who are known as successful citizens wouldn't know a split infinitive if they met one.

A man will get mad all over if he imagines some other man is trying to make a fool of him. But he will go ahead and make a fool of himself, and that is all right.

YOUR GIRL'S APPETITE

When your growing daughter's appetite becomes fickle and she shows a desire for sour, starchy or chalky articles look after the condition of her blood.

If she is pale and languid, nervous, without ambition and irritable her blood is unable to meet the demands made upon it.

Dr. Williams' Pink Pills are a specific remedy for the form of anemia, or lack of blood that afflicts growing girls and proper treatment with these pills will not only correct the trouble but prevent it from progressing into a worse form.

During her teens a girl lays the foundation for her future health. Lack of blood at this time may rob her of robust, healthy womanhood. It is of the greatest importance to administer to girls who grow pale and weak a safe, non-drowsy tonic and Dr. Williams' Pink Pills meet every requirement of the most careful mother.

Dr. Williams' Pink Pills make the blood rich and red and it carries renewed health and strength to every part of the body. These pills are recommended wherever a tonic is needed.

Your own druggist sells Dr. Williams' Pink Pills. Send today to the Dr. Williams Medicine Co., 500 Broadway, N. Y., for the book, "Building Up the Blood," it is free.

Thanks.
Thy dear heart, said Flo.
"To whip things makes me sad,
And I can't bite this egg, although I know that it is bad."
—Cincinnati Enquirer.

My heart is tender, too," said Sue.
"I hate to hear a scream,
And so I'm going to call the cook
To come and whip this cream."
—Memphis Commercial Appeal.

Is That So!
Oh, Luke McLuke, I'll not rebuke you for what you've been saying, for some fair day you'll eat some hay and then you'll start to braying. You think your cracks make people laugh and drive away dull care, but your braying stunt will put folks wise to what you really are.—A Montgomery (W. Va.) Cornfed.

General Goethals finds that the big canal needs him a while longer and, too, he may have heard about that plan of the Progressives to nominate him for President.—Kansas City Journal.

Anger.
The delegate who truly wise is, won't rave around and paw the dirt; for every time your temper rises, you do your system grievous hurt. Go ask the doctor, if you're doubting the truths I hand out by the ton, and he will say, "You bet! You're shouting! For anger shortens lives, my son." Oh, when with senseless rage you quiver, you heat your blood, oppress your

heart, disorganize your patient liver, and quite upset your appetite. Not only that, but when you're frantic, and rant around and jaw and scold, the people note your curve and antic, and say your head should be half-soled. Employers, too, will not desire you, they will not like your hothead style; they'll try you once, and then they'll fire you so hard you'll bounce for a half a mile. How does the fair immortal Lillian preserve her youth while others ship? She says she always counts a million, before she lets her temper rip.

GAS, HEARTBURN, INDIGESTION OR A SICK STOMACH

"PAPE'S DIAPEPSIN" ERADS ALL STOMACH DISTRESS IN FIVE MINUTES.

Time it! Pape's Diapepsin will digest anything you eat and overcome a sour, gassy or out-of-door stomach surely within five minutes.

If your meals don't fit comfortably or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Get from your pharmacist a fifty-cent case of Pape's Diapepsin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal griping. This will all go, and besides, there will be no sour food left in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is waiting for you at any drug store.

These large fifty-cent cases contain enough "Pape's Diapepsin" to keep the entire family free from stomach disorders and indigestion for many months. It belongs in your home.

IF KIDNEYS AND BLADDER BOTHER

Take a glass of Salts to flush out your kidneys and neutralize irritating acids.

Kidney and bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, causing you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast. Continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidney trouble, and causes no bad effect whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

MOBILIZATION OF GREEK ARMY SAID TO FAVOR ALLIES.

(ASSOCIATED PRESS TELEGRAM)

Milan, Oct. 14, via Paris, Oct. 15.—The Greek government is co-operating with the quadruple entente by keeping its army mobilized and by this action alone warding off a possible Bulgarian attack on the base of operations of the expeditionary force. An Athens dispatch to the Corriere Della Sera says that in exchange for this assistance the entente will furnish Greece funds for keeping up her armaments and that the national bank of Greece already has received a credit of 30,000,000 francs (\$6,000,000) from London and Paris.

ITALIAN INTERVENTION IN BALKANS A PROBLEM.

(ASSOCIATED PRESS TELEGRAM)

Paris, Oct. 15.—While there is no doubt of Italian intervention in the Balkans, the Petit Journal Milan correspondent says the question now under consideration is how contact can be avoided between the Italian and German contingents if Italy's share in the campaign comprises the use of land forces, as no declaration of war has been made on either side. It is reported that this may be overcome by sending the Italians against either the Turks or the Bulgarians or both.

MONEY ORDERS IN CHICAGO OFFICE MAKE A RECORD.

(ASSOCIATED PRESS TELEGRAM)

Chicago, Oct. 15.—All records in the volume of money order transactions have been broken in the Chicago postoffice within the last two days, it was announced today. The total for the two days was \$1,500,000. Yesterday's payments reached a total of more than \$750,000. Parcel Post business is forty per cent heavier than this time a year ago.

BULGARIA WELCOMED.

(ASSOCIATED PRESS TELEGRAM)

Berlin, Oct. 15.—(Via London.)—Bulgaria is welcomed by the Lokal Anzeiger as a new ally of Germany. The paper asserts that Bulgarians would have remained at peace if it had been possible, but that war was forced upon them just as it was upon Germany.

Some people go through life expending all their energy pricking the bubble of other people.

DENTISTS

WIND UP SESSION BY HOLDING ENJOYABLE BANQUET LAST EVENING

Will Attend State Meeting in Body to Do Honor to Noted Licking County Scientist.

The Willoughby D. Miller Dental Society of Licking and Knox counties, ethical dentists affiliated with the Ohio State Dental Society and the National Dental Association, the former meeting in Columbus this winter and the latter in San Francisco, concluded their annual session held in this city yesterday, by enjoying a banquet of splendid appointments last evening at the Shondell restaurant in West Main street, twenty-two guests being seated at the tables.

The afternoon session of the society was devoted to the reading of excellent papers and discussions on painless methods and the best filling materials. The annual election also took place, the old officers being again chosen as follows:

President—W. H. Sedgwick.
Vice President—R. L. McIntosh.
Recording Sec.—C. L. Wyeth.
Corresponding Sec.—E. V. Prior.
Treasurer—W. S. Deeley.

The president, Dr. Sedgwick, was also elected a director in the Ohio State Dental Society.

The dental society is named in honor of the late Dr. Willoughby D. Miller, who was born in Alexandria, Licking county, and afterwards became a world-famous scientist. He was an alumnus of Michigan University and after practicing his profession in this country for a few years went to Germany, where he became dentist to his Imperial Highness, Emperor William, and the royal family. He discovered a process for teeth preservation and was recognized all over the world as one of the most famous practitioners of his day. Dr. Miller died in this city at the City Hospital several years ago and his remains were interred in the Alexandria cemetery. Only last year the news gathering associations of the country carried a story that the German Emperor and German dentists would send representatives to this country to place a wreath on the grave of Dr. Miller. The breaking out of the war interfered with the plan.

At the banquet last evening, Dr. W. H. Sedgwick presided as toastmaster and amply fulfilled the functions of office to the satisfaction of everyone. In fact he made an ideal evening orator, and as several of the members expressed it, should be presiding over a state legislature. The guests seated around the banquet board with the president were Drs. C. L. Wyeth, E. V. Prior, J. D. Ford, Ed. Miller, A. V. Davis, A. W. Beard, J. H. McCahon, G. W. Bourne, C. D. O'Hara, J. T. Lewis, W. G. Corne, H. G. Withers and C. W. Keller of this city, L. E. Davis and W. R. Rohrer of Granville, C. W. Keelhorst of Pataskala and Drs. C. A. Beck, W. S. Deeley, R. L. McIntosh and W. S. Grossman of Mt. Vernon.

The toastmaster called on the various members for short talks and a very pleasant hour followed the serving of the menu which consisted of a spring chicken dinner with all the accompaniments necessary to make it thoroughly enjoyable. The cuisine was excellent, it was nicely served and Toastmaster Sedgwick complimented Mr. Shondell for his painstaking efforts.

During the course of the evening it was decided to attend the state dental meeting in a body and participate in the ceremonies incidental to the unveiling of a monument to the memory of Dr. W. D. Miller, which will take place at Columbus. The next meeting of the Licking-Knox society will probably be held at Mt. Vernon, in May and they will be semi-annual affairs hereafter.

ONLY SIXTEEN, GIRL VERY SICK

Tells How She Was Made Well by Lydia E. Pinkham's Vegetable Compound.

New Orleans, La.—"I take pleasure in writing these lines to express my gratitude to you. I am only 16 years old and work in a tobacco factory. I have been a very sick girl but I have improved wonderfully since taking Lydia E. Pinkham's Vegetable Compound and am now looking fine and feeling a thousand times better."

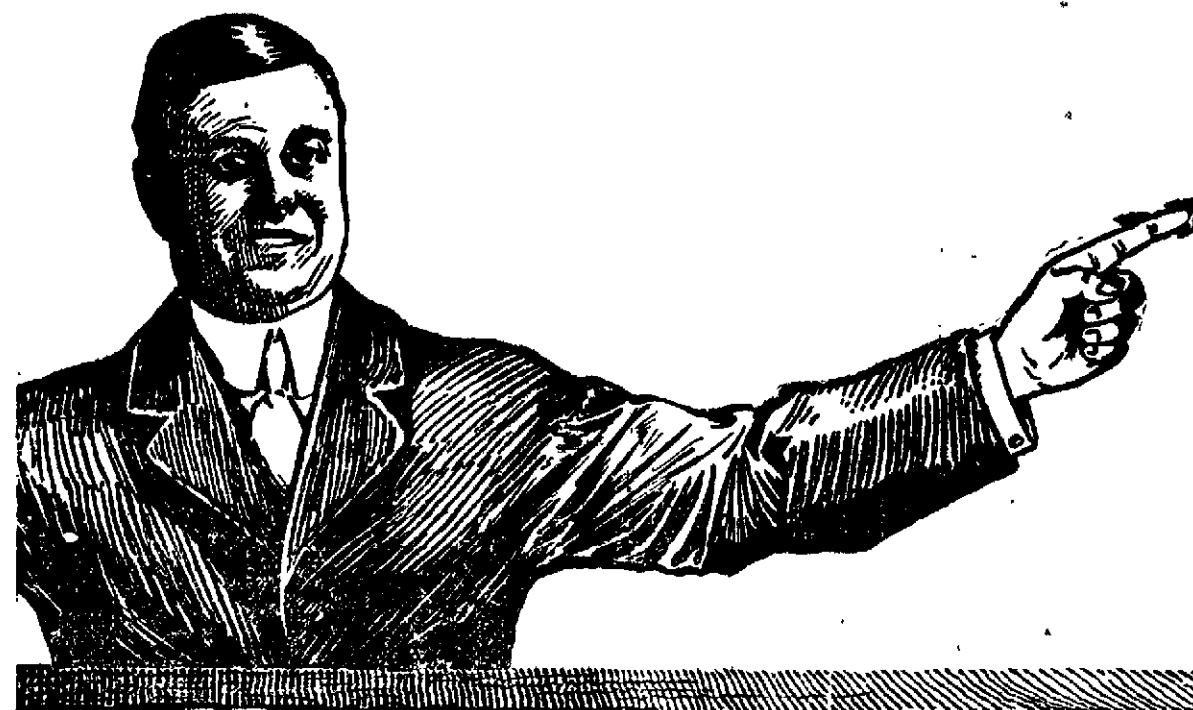

—Miss AMELIA JAQUILLARD, 3961 Tchoupitoulas St., New Orleans, La.

St. Clair, Pa.—"My mother was alarmed because I was troubled with suppression and had pains in my back and side, and severe headaches. I had pimples on my face, my complexion was sallow, my sleep was disturbed, I had nervous spells, was very tired and had no ambition. Lydia E. Pinkham's Vegetable Compound has worked like a charm in my case and has regulated me. I worked in a mill among hundreds of girls and have recommended your medicine to many of them."—Miss ESTELLA MAGUIRE, 110 Thwing St., St. Clair, Pa.

There is nothing that teaches more than experience. Therefore, such letters from girls who have suffered and were restored to health by Lydia E. Pinkham's Vegetable Compound should be a lesson to others. The same remedy is within reach of all.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

IT IS WORTH YOUR WHILE TO LOOK INTO THIS.

This 20th Century "Laurel" Heater

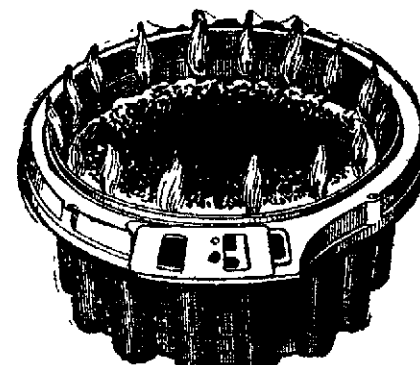

If you have to work hard for your money YOU CAN'T AFFORD TO GIVE IT ALL TO THE COAL MAN, even to the skies.

though he may be a good friend of yours. Neither can you afford to send it all up the chimney in smoke, when by means of this wonderful invention you can consume the smoke and generate the heat from it.

If you have money to burn you do not want to burn it — you don't want the annoyance of tinkering with an unscientifically constructed stove when you can so easily replace it with one that will pay for itself in peace of mind as well as in money.

is not an experiment. There are thousands of them in use and their owners praise them to the skies.

SEE HOW THE WONDERFUL "LAUREL" FIRE-POT BURNS FROM THE OUTSIDE

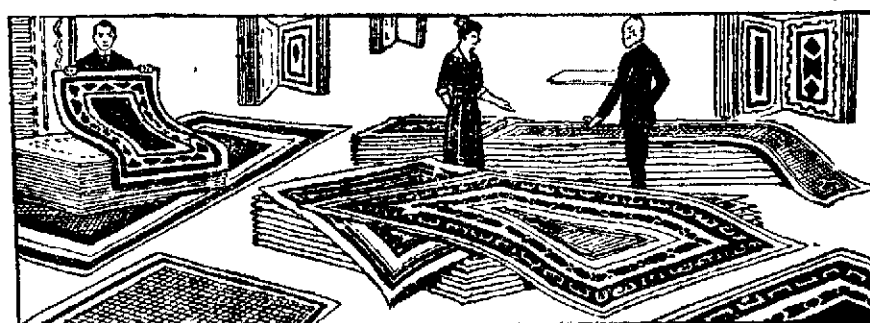

It can't burn any other way after the fire is started and the register grate closed. No smoke escapes from even the dirtiest kind of slack. It burns everything. While the fuel is burning on the edge of the fire pot gases are liberated and coke is formed in the center of the fire pot making the hottest fire known.

WE ARE ALSO DEMONSTRATING THE "LAUREL" COMBINATION COAL & GAS RANGE, burning both coal and gas at the same time. The Laurel Gas Range and the Laurel Coal Range. All Laurel Ranges are fuel savers. Come and have a good time with us tomorrow. Light luncheon will be served while Mr. Irwin, a factory representative, will tell you all about these wonderful stoves and ranges. You will not be urged to buy, but if you desire a stove right away, we can arrange credit terms to suit your income. Our wonderful buying power enables us to sell you a Laurel at the same price as an ordinary range.

CROSS, FEVERISH CHILD IS BILIOUS OR CONSTIPATED

LOOK, MOTHER! IF TONGUE IS
COATED GIVE "CALIFORNIA
SYRUP OF FIGS."

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When, its little system is full of cold, throat sore, has stomachache, diarrhoea, indigestion, colic—remember, a good "inside cleansing" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 50-cent bottle of "California Fig Syrup Company."

SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's recipe to bring color, lustre and thickness to hair when faded, streaked or gray.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray, streaked and looks dry, wispy and scraggy, just an application or two of Sage and Sulphur enhances its appearance a hundred-fold.

Don't bother to prepare the tonic; you can get from any drug store a 20-cent bottle of "Wyeth's Sage and Sulphur Compound," ready to use. This can always be depended upon to bring back the natural color, richness and lustre of your hair and remove dandruff, stop scalp itching and falling hair.

Everybody uses "Wyeth's Sage and Sulphur" because it dawns so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy, lustrous and abundant.

PRESBYTERIAN

(Continued from Page 1.)
don her children to the influences of the enemies of her Lord. There must never be a union of church and state. The history of such relations has been disastrous. If men believe in God and have benefited by an acquaintance with Jesus Christ and want to make it known, let them do it by their free gifts.

The popular meeting in interest of Foreign Missions and Education was presided over by Rev. William Hudnut, D. D., of Youngstown and Rev. William Houston of Columbus. One of the most interesting speakers of the evening was Rev. William C. Johnston, Batsnea, Africa. He told

of his experiences as a missionary in Africa and of the marvelous growth in his church. The church has a congregation of 8,000 and is rapidly growing.

They teach German and the native tongue to classes of boys and girls each having a separate school. There is a class in theology.

"We get out of our Christian life just what we put into it. Our African friends put 14-15ths of their life into the church, consequently there is no worry about their returning to paganism. Polygamy is not a hard phase of the work to handle. Each of the wives has her own hut and garden and when the man renounces polygamy she is able to take care of herself. The African is not coming into the church because of your missionaries or because of their fancy preaching. They are coming into the church because they are bringing in their fellow men, and one of the best features of the African work is that it is self-supporting."

Mr. Johnston told of his appeal to the Africans for workers in the field and of the response of forty-one. The African now supplies workers for evangelism and pays them for their services. A carpenter shop was established in the interior. It is self-supporting and before the war it was clearing \$5,000.

Many industries have been established, the trades and professions having been taught, the outposts are sold and the result is that they have become paying investments. The result from the industrial last year was \$10,000.

"The African does not wear his clothes for covering but for adornment."

"The mission has become a business and the time is past when the mission work of the work can be done by the women alone. Men and women must unite in the work and when they do they will have the well balanced work that we have in our mission fields today."

"When an African comes to be a Christian we first require that they go back and clean up their past record. Then they study for a year. Are examined by session and sent back for another year, sometimes it is five years before they are baptized."

An offering was taken for the women's home and foreign missionary societies.

Rev. J. K. Gibson, chairman of the reservations committee was present and read the resolutions of thanks for the courtesies extended. The resolutions included a vote of thanks for all the attendant aid extended during the stay of the visiting ministers. The resolutions were adopted by a rising vote.

Those named in the resolutions including the choir members, ladies of churches, the mayor and local committees, also the High School orchestra, the donors of the machines the hosts in the homes, and the newspapers.

Rev. W. Houston, pastor of the Presbyterian church students at Ohio State University introduced Rev. Hugh T. Kerr, D. D., of Pittsburgh who spoke on foreign missions.

"I sometimes think that our church men have no intellectual conception of the work of the great boards of our churches. I am here to speak on the Board of Education, the second oldest board of the church which will next year celebrate its centennial."

"The aspiration and ideal of the work of the board has been broadened and widened, and its agency has been greatly facilitated. Last year we had 1304 being educated on the trust fund."

"Then the foreign field calls to leaders and in our school 250 young men who do not talk the English tongue are studying for their missionary field."

"Our board of education is carrying these alone, but they are not

Our Suits have other claims to distinction than even the superiority of personality in mode. The materials must be the finest—the tailoring must be of the highest standard—it must bear comparison with the finest custom made-to-order garment. And it does.

nearly sufficient. This board has faced the problem of state universities. Hundreds of the students of Presbyterian families are in these universities and they need a pastor.

"There are two things I would like to say: First, the strategic place in the world's economy of God is in our American college; second the supreme place of opportunity in our Christian life is the pulpit."

The minutes of the evening's work were read, and adjournment was taken.

The moderator, Rev. Walter H. Houston, proposed the motion for adjournment by saying that the thirty-fourth synod had been marked by a program of speakers that were unsurpassed and by a most enjoyable and profitable session.

THURSDAY AFTERNOON.

The Thursday afternoon session was opened with the report of the committee on The American Bible Tract society.

The following resolutions were introduced:

1st—Resolved that the Synod of Ohio appoint a committee of three to co-operate with the secretaries of the American Bible society at New York in preparing for the centennial celebration in 1916.

2nd—That the Synod of Ohio urge upon all its ministers in Presbyterian churches that they observe a Bible Day in 1916, telling of the work of the American Bible society for 100 years and its relation especially with our Presbyterian church at home and abroad.

3rd—That this Synod have some one deliver a suitable address before the Synod on The American Bible society centennial of 1916 at the next meeting.

The Synod adopted the report as a whole and in compliance with the first resolution, appointed Rev. W. L. Wilson, Rev. D. L. Meyers, Elder H. M. Shelhamer.

In compliance with the last resolution J. King Gibson was appointed.

Rev. David H. Johnston completed the work put over from the morning session on Wednesday. It had to do with the report of the executive committee. Dr. Johnston read a proposed standard for the Presbyterian church, and the reading precipitated a lively debate. The synod objected to its acceptance as a whole, many objecting to a rotary eldership, and others did not approve of 10 percent additions to the church membership each year.

After many discussions and mooted questions as to parliamentary law, the standardization plan was laid on the table, and a new motion was made to appoint a committee of five to draw up a standardization and report it to the synod of 1916.

Rev. Mr. Johnston also chairman of the committee on Lane Theological seminary gave his report. Last year 398 ministers were received, one-third of which came from other churches. The speaker recommended that the ministers keep a lookout for young men for the ministry.

"We believe that Lane seminary was a particular field because 30 percent of the students come from the South, and they go back with a much changed opinion."

The report was adopted with the recommendations.

Dr. William McKibben, president of Lane theological seminary then gave a short talk on the seminary. No invitations were extended for the next year's synod meeting so the moderator stated the club will select a place during the coming year.

A motion was adopted transferring the Doylestown church property from the Wooster Presbytery to the Cleveland Presbytery.

A recess was then taken to take an auto ride over the city, which had been planned by the committees of the two churches for the entertainment of the visitors.

change of Nu-
merous Parts.

Here, in this new "GARLAND" Combination Range, you get a single stove that now does the work of two! Burns coal in the winter; keeps the kitchen warm. Burns gas in the summer and keeps the kitchen cool. Something that never before was possible except with TWO ranges.

And you burn either coal or gas, or BOTH SIMULTANEOUSLY, in this new "GARLAND" without changing or adjusting complicated parts. No shifting of dirty, sooty grates or top burners. No fuss, no muss, no work or worry. Think of the wonderful convenience and added capacity on wash days or any time when the kitchen is crowded and cooking is heavy. We will only be too glad to show you this

Resolute Garland Combination Range

And demonstrate the many features it has and show you why it is an advantage over any other range on the market. We also carry a full line of

WATCHES REPAIRED AND GUARANTEED ONE YEAR

My business has always been conducted on a cash basis, but owing to conditions at present, I will lay aside any article in stock on a small payment plan, beginning Saturday, October 16

We Plead Guilty To The Murder of Prices

This is an ice cold business proposition. Forced to sell out the entire Wilcox Bros. stock of clothing, shoes, dry goods, furnishings and etc., in a hurry, compels us to use drastic measures. All former prices have been wrecked beyond the belief of human mind. Here you will find values that no living being would ever expect to see. Come! attend this selling out sale tomorrow and every day next week. Don't wait—don't delay—delay is dangerous sometimes. Everything on sale.

THRILLING FIGHT FOR LIFE IS WON BY DAYTON WOMAN

MRS. NORA VAN ZANT THAYER

Modern miracles must still exist, for the recovery of Mrs. Nora Van Zant Thayer, 54 Center St., Dayton, O., almost equals the wonderful healings given to us in the Bible. The following is taken from a signed letter written to us by Mrs. Thayer:

"When a child I suffered from tonsillitis and catarrh in my head. As I grew older the trouble became more general and the suffering more severe until my nerves were in a weakened condition and everything I did became an effort. Life was at times almost unbearable and many times I lay down to sleep hoping I might never wake. The pains in my chest and throat were constant. Every little cold brought on a cough and the nervous prostration gradually became worse. I had palpitation and continual pains around my heart and sinking spells upon the least exertion. My limbs were numb and swollen. Doctors and medicines did me no good.

"In October, 1910, I became much worse and went rapidly toward what seemed to be the end. I became almost helpless. I could not sit up or stand. My limbs seemed partially paralyzed. I was blind at times and could speak only in whispers with difficulty. I also suffered much pain in my brain and spine. I stopped coughing. There was constant rattling and burning in my throat, but there was no outward sound.

"On Friday, December 1, 1910, I took my first dose of Nature's Creation. I was ready to weep, for three days I seemed only existing. On the fourth day a great amount of mucus loosened, and a strange hope and encouragement came to me. The medicine in effect was unlike anything I had ever taken. I never lost the hope that came to me with the first dose of medicine. Recovery was necessarily slow, for I think every cell of the body was renewed, and this renewal could only be brought about by the action of the medicine, because in the helpless condition of the body, its inability to exercise or properly digest food, nature had little chance to do her part. Gradually I became stronger until I was able to sit up and could speak aloud. The pains grew less severe, and improvement generally faster, until in time I was able to be up the greater part of the day.

"From the time I began my treatment I took no other medicine except a tonic prescribed by Nature's Creation's physician. Sometimes it seems too good to be true, but nothing is ever that, and I earnestly hope that other sufferers may be helped as I have been. I feel certain that what Nature's Creation did for me, it will do for others. God has been wonderfully good to me."

On February 13, 1915, Mrs. Thayer wrote that "I have continued to improve, was married January 6 and am happy in my own home, doing all my work and looking forward to living a busy, happy life."

Nature's Creation is a most remarkable remedy for tuberculosis and conditions leading to it, such as asthma, bronchitis, catarrh, impure blood and rundown system. Learn more about it by reading our booklet, "Truth," containing photos and testimonials of people you may know. Send for copy, M. L. Raymann, 308 Central National Bank Bldg., Columbus, O.

Beware of imitations—use only the original and genuine Nature's Creation.

KELP CROP WILL BE HARVESTED BY POWDER COMPANY

(ASSOCIATED PRESS TELEGRAM)
San Francisco, Oct. 15.—The kelp crop of the Pacific ocean is to be harvested by a powder company to obtain an ingredient used in making ammunition for the warring nations of Europe, it was announced today.

The statement is made that one of the largest manufacturers of powder in the United States has decided to spend a large sum in this enterprise in order to obtain the chloride of potash it needs to fill its war orders and which it can no longer obtain from Germany. It has long been known that kelp such as is to be found along the shores of the California coast, is rich in potash.

"EDISON DAY" TO BE CELEBRATED AT EXPOSITION

(ASSOCIATED PRESS TELEGRAM)
West Orange, N. J., Oct. 15.—Thomas E. Edison, chairman of the new naval advisory board, is on his way to San Francisco today to be present at the celebration of "Edison Day" at the Panama-Pacific exposition. He is accompanied by Mrs. Edison, her sister, and William Bee, a storage battery expert.

A crowd gathered at the railway station here last night to bid Mr. Edison farewell.

"I feel like a prince," said the inventor, dancing a few steps to prove it. "I'm going to travel to San Francisco like a prima donna," he added, as he looked over the private car in which the party will make the journey. "My old friend, Henry Ford, sent this car for me. He will join us in Chicago."

As Mr. Edison was about to board the train a bevy of young women gathered about him and some of them insisted upon kissing him goodbye.

NEW SOUTH WALES SETS UP OFFICE IN NEW YORK CITY

(ASSOCIATED PRESS TELEGRAM)
New York, Oct. 15.—The government of New South Wales has established offices in this city for the purpose of increasing trade between America and Australia. P. E. Quinn, the trade commissioner in charge of the office, announced today that his immediate object is to establish a direct steamship line between New York and Sydney. He said that a large trade between Germany and Australia had been destroyed and that so far Japan has been the most active nation in seeking the business Germany has lost.

The trade of the United States with Australia is worth three times as much as that with China, Mr. Quinn said.

PROMINENT WOMEN EN- DORSE OUR STATEMENTS.

Newark, Ohio.—"I had a very satisfactory experience with Dr. Pierce's Favorite Prescription. I was poorly, dragged out, tired out and had female trouble. I was persuaded to use several bottles and it put me on my feet. I gained in weight and strength and became quite well under this treatment."—Mrs. Geo. S. Lewis, 303 Wilson St., Newark, Ohio.

Newark, Ohio.—"I have had a most satisfactory experience with Doctor Pierce's Pleasant Pellets. For over ten years we have found them a reliable and efficient remedy for biliousness and constipation. You may say I recommend them."—Mrs. L. M. Wells, 62 Buena Vista St., Newark, Ohio.

Dr. Pierce's Favorite Prescription is a true friend to women in times of trial and at times of pain when the organs are not performing their functions. For headache, backache, hot flashes, catarrh of women, bearing down sensation, mental depression, dizziness, fainting spells, lassitude and exhaustion women should never fail to take this tried and true woman's medicine.

For girls about to enter womanhood, women about to become mothers and for the changing days of middle age, Dr. Pierce's Favorite Prescription should always be on hand.

It's a temperance remedy that is extracted from roots with pure glycerine and its ingredients are published on wrapper.

Any medicine dealer can supply it in either liquid or tablet form. The cost is modest, the restorative benefits truly remarkable. Write Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., for free 136 page booklet on women's diseases. Every woman should have one. You can also have confidential medical advice without cost.

TURKISH REPORTS CLAIM VICTORIES ON ALL FRONTS.

(ASSOCIATED PRESS TELEGRAM)
Constantinople, Oct. 15.—(Via London)—An official statement issued tonight at the Turkish war office was as follows:

"Near Anafarta we inflicted heavy losses on the enemy by the use of bombs. Our fire damaged an enemy aeroplane which fell east of Tuzlagol and finally was destroyed by our artillery.

"Our artillery destroyed an enemy machine gun position near Ari Burnu.

"Our observation detachments near Seddul Bahr inflicted heavy losses on the enemy's right wing after a surprise attack with hand grenades Tuesday night. A mine exploded before his left wing destroyed a considerable part of the enemy's trenches.

"Enemy torpedo boats and coast batteries vainly bombarded our artillery. Near Seddul Bahr our artillery forced torpedo boats, which were bombarding our left wing, to leave the narrow.

PITCHER POSSESSES BALL UNTIL IT REACHES CATCHER.

Newark, N. J., Oct. 15.—Members of the Freshman class of the New Jersey Law School here were relieved today by Dr. Calvin McClelland's decision that a baseball thrown by a pitcher is still in his legal possession when it is midway between the pitcher and the plate. Dr. McClelland propounded the problem to his class to demonstrate the law of possession and the task of solving it was taken up by the baseball fans. There was a variety of answers.

Now the teacher has decided that the pitcher still possesses the ball because his power over it has not been interrupted by the batsman or the catcher.

Concrete arches resting on bedrock have been built in a New Hampshire cemetery to support gravesites in land too soft to support them itself.

ITALIANS PLACE A BIG ORDER FOR AMERICAN LUMBER

(ASSOCIATED PRESS TELEGRAM)
Savannah, Ga., Oct. 15.—The Italian government has placed an order through a New York and Georgia lumber company for 51,000,000 feet of lumber, chiefly yellow pine, according to an announcement today in the Southern Lumber Journal of this city. The order calls for 29,000,000 feet of boards, 15,500,000 feet of timbers, ranging in size from 2 x 4 to 12 x 12 inches, and 6,500,000 feet of railroad cross-ties, says the trade magazine, which terms it as the largest single order ever placed in the United States. The lumber is expected to come chiefly from Georgia, Florida, Alabama, Mississippi, Louisiana, Texas, Missouri and Oklahoma.

SOX PLAYERS GET \$3,825.80 EACH; TEAM DISBANDS

Boston, Oct. 15.—With checks in their possession for \$3,825.80 as their individual shares of the proceeds of the world series games, several members of the champion Red Sox team left for their homes last night. Other players are to join automobile or hunting parties, while first baseman Hoblitzel and catcher Cady are planning to become members of a special playing team under the management of Secretary Hancock of the Cincinnati club.

Twenty-two players shared equally in the money split. McNally, one of the eligibles, who was with the team only a short time, receiving a smaller sum than the others. Before the division was made the players took out McNally's share and also \$500 each for Secretary Hilley and for Trainer Green, and certain gifts for other club attaches. They are to make testimonial gifts to Manager Carrigan and President Lannin later.

The Philadelphia players' share of the world's series money was divided into 24 parts and each of the 24 men eligible to participate in the series was given a check for \$2,492.27. The \$414 share was divided into three parts, one of which went to Pitcher Oeschger, who joined the Phillies in September, and the other two parts were divided among Mike Dec, the trainer, and several others.

The Height of It.
"They tell me," said the professor, "that Mrs. Highroller is a very sympathetic woman."

"I should say she was," said Harkaway. "Why, when her husband eloped with Mrs. Gayboy she immediately sent Mrs. Gayboy a telegram of condolence."—New York Times.

The Scotch Woolen Mills Label Is Never Found In Inferior Tailoring

It never goes into a garment until we are satisfied, after a most rigid inspection, that the Suit or Overcoat is right in every particular—not alone as to quality of materials and workmanship, but that the correct harmonizing between the fabric, linings and findings has been observed. Then and then only is our label sewn into the garment.

Suits and Overcoatings \$15, \$18, \$20, \$22, \$25, \$28, \$30

(Made As You Order Them.)

Not in years have as many innovations taken place in men's styles as this season. Tailored clothes, modeled after the authoritative fashions of the hour permit of any of these "whims of fashion" being followed. We offer this advantage and no other can give you the values we do because of our exceptional equipment and extensive operation. Delaying longer is not advisable—let us have your order tomorrow.

And Now Comes a Detroit Jewel Stove That Will Make Selling Records

149 Stoves Are Effected-----Tomorrow Morning We Will Place on Sale Our
Entire Line of DETROIT JEWEL HEATING STOVES At Discounts
Ranging From 25 to 33 1-3 Per Cent.

THIS GREAT STOVE HAS A NATIONAL REPUTATION.

For over 50 years it has been the leader of every new improvement in stove construction. Naturally this stove sold for a little more than the ordinary kind, yet tomorrow, despite its superiority, this stove will sell that well known stove at a price even less than the ordinary kind.

NEVER BEFORE WAS THIS STOVE SOLD FOR SO LITTLE

Thousands upon thousands of people have bought these same stoves at the regular prices because they are the best stove value on the market today at the regular prices. But now at these special sale prices great numbers of people who have denied themselves the comfort and conveniences of this wonderful stove will order one sent to their home immediately.

OUR ONLY WORRY IS THAT WE WON'T HAVE ENOUGH TO SUPPLY THE DEMAND.

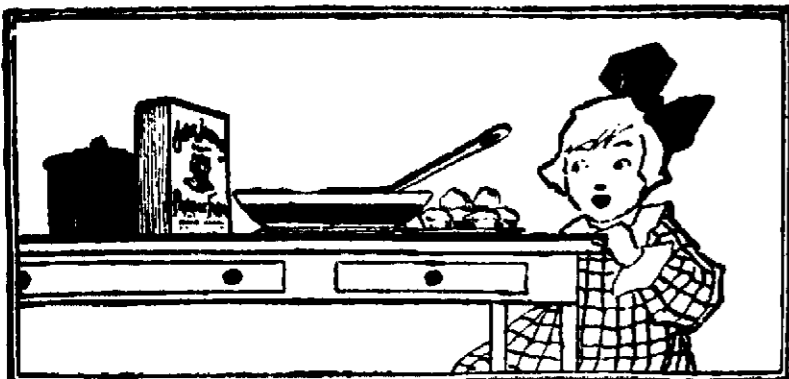

When you consider the reputation of these stoves, realizing that they are the latest 1915 models, with every latest improvement and that the special sale prices are several dollars under the lowest prices ever quoted on these stoves, you'll understand why we are worried about our ability to supply the demand that will be created for them.

THE FIRST ORDERS PLACED WILL BE DELIVERED FIRST.

To be among those who will save money at this sale you must place your order early. These remarkably low prices will cause such a tremendous sale that we will have a hard time delivering them all, and therefore suggest that you place your order early if you want to begin enjoying your DETROIT JEWEL at once.

SALE STARTS TOMORROW MORNING
Gleichauf's GLEICHAUF'S Gleichauf's

Always so good!

No chance for failure to make good muffins when you use Aunt Jemima's Pancake Flour.

All the ingredients are scientifically blended—according to a recipe exclusively our own. In order to have Aunt Jemima's Pancake Flour absolutely perfect, the milk is already mixed in it. They are so easy to make. Even if you have never made muffins before you can easily do so now.

Serve Aunt Jemima muffins for breakfast tomorrow. Your family will say "My, how good—we want some more."

"Made in a minute—the milk's mixed in it"

(Copyright, 1932)

CRITICISM

OF BRITISH NAVAL METHODS
NOT ALLOWED IN LONDON
NEWSPAPERS

Admiralty Leaves to Guess Work the
Number of Ships Sunk by
Or of the Enemy.

(Associated Press Correspondence)

London, October 5.—British papers have re-published from American and other neutral papers various estimates of the number of German submarines sunk by the British, but so far the admiralty has authorized no figures or estimates of its own, contending itself with the explanation of the admiralty, that since the number is not definitely known, it is better neither to under-estimate nor over-estimate it. The British noted with satisfaction the small number of ships—six—only that were reported sunk by submarine attack last week. While this is one of the smallest-weekly losses, and almost infinitesimal compared with the enormous amount of shipping exposed to attack, even this showing has led the British into no over-confident predictions that the danger is over or that the navy has altogether overcome the danger.

This is but one of the naval topics on which the press is virtually silent, except to reproduce the comment of foreign newspapers. American newspaper readers are daily presented with more or less well-supported discussions of matters relating to the British navy of which not a line appears in print here. Recently some of the London papers published from an American paper an article about a new aircraft, constructed to fight the Zeppelins. It was passed by the press bureau with the observation that it could in no degree vouch for the accuracy of any of the statements therein.

When the American papers were printing references to the net across the English channel, describing it, even to the name of the makers, there was not a word about it in the British papers. Indeed, it would be an almost startling experience if a London publisher should be permitted to print any of the many articles about the British navy that appear so frequently in American journals.

Be Healthy, Happy, Vigorous

Trembling, Nervous Prostration and
that Tired Feeling Vanish after
a Treatment of Ambition Pills.

Every run down, weakened, tired out nervous person in Newark is invited to go to T. J. Evans this very day and get a 50 cent box of Wendell's Ambition Pills.

They will make anyone feel fine, happy and vigorous in a few days. Mail orders filled, charges prepaid. By The Wendell Pharmaceutical Company, Inc., Syracuse, N. Y.

BAUGHMAN CARVES ANOTHER MONUMENT FROM SANDSTONE

Brice B. Baughman, farmer-undertaker-sculptor, who farms, directs funerals and carves sandstone in and around Black Run, eastern Licking county, has completed another monument of civil war heroes which will be added to the collection of monuments which have been erected and dedicated on the Baughman farm which has been named Memorial Park.

The latest product of Mr. Baughman's chisel will be dedicated next Tuesday afternoon. Fitting ceremonies will be carried out and a number of speakers of state-wide prominence will be present.

Invitations have been extended to Governor Willis, General R. B. Brown, of Zanesville, Adjutant General Matthews of Columbus, Colonel E. L. Curry, of Columbus, and most of them have accepted. There will also be local speakers.

Lemert Post, G. A. R. of this city, will take an active part in the ceremonies and arrangements have been completed for the transportation of Newark people, all of whom are invited, and many of whom will attend.

The Pennsylvania train which leaves Newark at 10:50 o'clock Tuesday morning, will stop at Black Run for the discharge of passengers. Train service in the evening makes it possible for Newark people to return in time for supper here.

Mr. Baughman's monuments have been commented upon by many Ohio people. He has never taken a lesson in stone carving yet his monuments are wonderfully lifelike and are readily recognized by any one familiar with the portraits of famous men.

He has offered to carve a statue of any of the civil war generals for erection in any public place in Newark and it is possible that his offer will be accepted by the old soldiers here.

A little push will surmount obstacles, but, nevertheless, it keeps a man behind.

Greaseless, cleansing, pure

It stands alone

Positively contains no animal fats, nothing that will cause a growth of hair.

CALIFORNIA CITRUS CREAM

Removes dirt and soap from the pores, without leaving that shiny look. Cleans the skin of imperfections. Gives a matchless, natural complexion. Scientifically prepared from lemons—no chemicals, no "filler," no perfume—absolutely pure. In the disk-bottom tube that stands alone. Price 25c

HOMER

Preaching services at the Baptist church next Sunday evening at 8 o'clock. Sunday school at 9:30 a. m. Prayer meeting Tuesday evening at 8 p. m.

COFFEE WHIPS UP AND CONSUMES RESERVE ENERGY

Investigators Declare Continued Use of Coffee Works Disaster to Nervous System.

"Does the daily use of coffee as a beverage, continue for a series of years, do harm?"

"Yes," says Dr. W. A. Evans, in the Chicago Tribune. "A horse cannot be whipped daily for years without being harmed. A man cannot be nagged continuously for years without being harmed. The very fact that, when fatigue is slowing down muscles and brain cells, under the stimulus of coffee the coffee will whip them on, and that working capacity is unduly excited, is proof that harm will come if the process is kept up for a series of years."

"Fatigue is a danger signal," adds another investigator. "It means that the weary body should immediately seek rest. Caffeine in any form puts a mask on this signal, and temporarily conceals it by whipping up the reserve forces and then consuming them."

"Fatigue is like a red light that calls attention to a ditch in the dark. Nobody with common sense would assume for a minute that by putting out the light the ditch would be removed. Yet that is exactly what weary people do when they disguise their weariness for an hour by resorting to stimulants."

NOTE.—It is interesting to observe that as medical science moves and more reveals the harmfulness of coffee to the health of both old and young, there follows a tremendous increase in the use of the pure food beverage, POSTUM.

JEWELS

GIVEN DUKE OF ORLEANS BY BULGARIAN KING WILL BE RETURNED.

They Represent Various Decorations or Orders.—Duke Writes Bitter Letter to Ferdinand.

(Associated Press Telegram) Paris, Oct. 15.—The Duke of Orleans addressed a letter to King Ferdinand of Bulgaria several days ago, requesting the monarch to take back the jewels of Bulgarian orders which had been bestowed upon him. In his communication the duke said:

"The attitude your majesty has thought right to take in the present war, contrary to your previous policy, forces me to the sad duty of praying your majesty to take back the jewels of Bulgarian orders with which your majesty invested me."

"I tell your majesty to take back the jewels, because, alas! I cannot send them, but your majesty has only to apply to his ally, who, for more than a year, has occupied my chateau in Belgium, and from whom my life can have no secrets. I authorize giving up to your majesty orders I can no longer wear."

"Your majesty will understand I am obliged to warn your majesty the day he takes up arms against my country, France, his name will be struck from the Chapter of Knights of the Holy Spirit."

A letter the duke wrote to Emperor Francis Joseph at the outbreak of the war also has been published. In it he asks the ruler of Austria-Hungary to take back the jewels of the order of the Golden Fleece, and refers to his marriage to the Archduchess Maria Dorothea as "the misfortune of my life."

Herr Unthan, a German, who was born without arms, has been engaged by the German government to give instructions to soldiers who have lost both arms in the war. Herr Unthan is 60 years old. He can play a violin, write letters, eat and wash himself with the use of his feet.

To get things coming your way, you must have the right bait.—Philadelphia Record.

Botanical Mfg. Co., Philadelphia, Pa.

SKILLFUL

TO RESTORE WILL OF MARTHA WASHINGTON TO FAIRFAX COUNTY.

(Associated Press Telegram) Richmond, Va., Oct. 15.—Governor Stuart has ordered that the will of Martha Washington, recently returned to the state by J. Pierpont Morgan be given into the custody of Fairfax county, from which it was stolen during the Civil War. It will be formally delivered to the chairman of the Fairfax Board of Supervisors Monday and will take its former place in the court house.

Governor Stuart acted under a ruling of Attorney General Pollard, who held that the will must be returned to Fairfax county, as a part of the county records, in compliance with the legislative act which authorized the state to bring suit against Mr. Morgan for its recovery. When Mr. Morgan voluntarily returned the will, which had been found in his father's collection of historical manuscripts, he requested it be placed in Mount Vernon, and offered to build for it a fire-proof receptacle.

STUBBORN

RESISTANCE OF SERBIANS HOLD BACK GERMANS ATTACKING IN FORCE.

Mayors of Villages on Macedonian Frontier Made Officers in the Serbian Army.

(Associated Press Telegram) Paris, Oct. 15.—The Germans are attacking in great force near Passarowitz, which commands the Morava valley, according to a Nish despatch to the Matin. The Serbs are resisting stoutly and it is asserted that the invaders have not advanced more than four miles south of the river at any point on the Danube front. The Bulgarians have held in the Timok valley, where a few action is in progress along the entire front.

Mayors of villages along the Macedonian frontier have been made officers in the Serbian army and have been instructed to organize bands of irregulars who will be armed with Mauser rifles.

It Nish is seriously menaced by the Austro-German Bulgarian invasion it has been decided to transfer the government to Mitrovica, close to the Montenegrin frontier. Mitrovica is the terminus of a branch railroad which connects with the main line from Nish to Constantinople.

DELCASSE

SAID BY GERMAN PAPER TO HAVE OPPOSED LANDING FRENCH TROOPS

At Saloniki and He Perceived That Public Opinion Was Turning Against Him.

(Associated Press Telegram) Berlin, Oct. 15.—(By wireless to Sayville, N. Y.) —The assertion is made by the Tageblatt, that Theophile Delcasse, who recently resigned as foreign minister of France, opposed the landing of French troops at Saloniki.

"Perceiving that popular opinion was turning against him, the Tageblatt adds: 'Delcasse seized upon the pretext of the Saloniki expedition as a reason to resign. He was thus able to disappear from the political theatre in the attitude of the man who foresaw calamities, and warned the nation, while in reality, he, together with President Poincare, and War Minister Millerand, brought about the present situation.'

The Vossische Zeitung says: "Delcasse's whole career was based upon the idea of revenge. He entered parliament with a speech in favor of a Franco-Russian alliance. He always represented the idea of war on Germany. He was inspired by the late King Edward, one of the most active workers for the isolation of Germany. In 1905 Clemenceau thought that Delcasse had never again to return. But he did reappear and if he is now abandoned forever by his former associates, their decision comes too late for France."

M'DANIEL TEAM FACES HARD GAME HERE NEXT SUNDAY

The most formidable foe to be faced this year by the M'Daniel football team will be the Matamoras Tigers, a 185-pound organization from Richmond county, which comes with the reputation of being able to shatter most defenses and score easily.

Of course this reputation has been gained without having met the Newark warriors who have somewhat of a reputation, themselves, as reputations go.

What will happen Sunday no one is able to tell. But the Newark boys are willing to wager that Mansfield will know she has been in a football game after Sunday's contest.

The Newark team practiced signals and new formations last night at Sixth and Main streets and another rehearsal will be held at Wehrle Park Sunday morning.

The game will start at 2:45 o'clock.

Want a house? Read the Wants.

SKILLFUL

EXPLOITATION OF RUSSIAN RETREAT THROUGH BULGARIA BY GERMAN AGENTS

Caused Sentiment there to Turn Against the Entente Allies Toward the Teutons.

(Associated Press Telegram) Paris, Oct. 15.—That the Russian retreat, skillfully exploited by German agents, was the immediate cause of turning against the allies the sentiment of the Bulgarian people, who are intensely practical, was the assertion made by A. De Panafieu, French minister of Sofia, to the correspondent of the Journal at Piraeus.

"The event coincided," he said, "with the visit of the Duke of Mecklenburg, who found a ready tool in King Ferdinand, a blind believer in Germany's victory. The Champagne success came too late to restore the balance. The Bulgarian people understand nothing of diplomatic calculations. They see only Macedonia to be conquered. Certainly if the Russian flag appeared at Varna or Burgas it might rouse memories in their inmost souls, but interest comes sentiment."

"It would be premature to express an opinion about the possibility of a revolution for at least a month. The Bulgarian people are embarking upon a risky adventure without joy, but it is beyond question that if they have been deceived they will seek out and punish the guilty. The rupture of diplomatic relations supplanted the Bulgarians. Even when we went to get our passports no one in Sofia believed we were going. We were treated with the greatest cordiality and our journey to Dedegatch was without incident."

CONVICTS ENROLL FOR INSTRUCTION BY CORRESPONDENCE

(Associated Press Telegram) Berkeley, Calif., Oct. 15.—Fourteen inmates of the Folsom state prison, the University of California announced today, have enrolled in a new correspondence course for instruction as teachers. With the establishment of the normal course, the inmates of the two state prisons have the benefit of a complete curriculum, from primary instruction to full university training. At Folsom 520 prisoners are taking the university correspondence courses.

The first Jew to win the Victoria Cross, Lieut. Frank Alexander de Pass, has since been killed in action. Twenty thousand of the 200,000 Jews in Great Britain are said to be with the colors.

Get in the Game—"Roll Your Own"

When the umpire shouts, "Play Ball," light up a fresh-rolled "Bull" Durham cigarette and settle down to root for the home team—the one best way to enjoy a ball game, as millions of "fans" will testify.

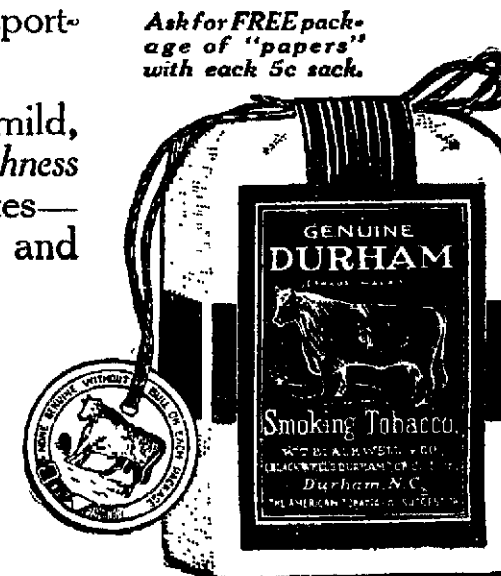

GENUINE "BULL" DURHAM SMOKING TOBACCO

has been identified with the great national pastime for so many years that it has practically become a part of the game itself—the spectators' part. No other game can ever supplant baseball—no other tobacco can ever supplant "Bull" Durham—in the enthusiastic favor of sport-loving, enjoyment-loving America.

The unique fragrance of this pure, mild, mellow tobacco—the smoothness and freshness of "Bull" Durham hand-made cigarettes—afford distinctive, wholesome enjoyment and thorough, lasting satisfaction.

FREE An illustrated Booklet, showing correct way to "Roll Your Own" Cigarettes, and a package of cigarette papers, will both be mailed, free, to any address in U. S. on request. Address "Bull" Durham, Durham, N. C.

We promise you a **Brand, Splintered New Stock of Clothing, Hats and Furnishings**, guaranteed not only by the makers but each garment has our personal guarantee. With the assurance that you receive honest merchandise and courteous treatment, we most respectfully solicit your patronage.

RUTLEDGE BROS. Souvenirs tomorrow for ladies and gentlemen.

Thin Folks Who Would be Fat

Increase in Weight Ten Pounds or More.

"I'd certainly give most anything to be able to fat up a few pounds and stay that way," declares every excessively thin man or woman. Such a result is not impossible, despite past failures. Most thin people are victims of mal-nutrition, a condition which prevents the fatty elements of food from being taken up by the blood as they are, when the powers of nutrition are normal. Instead of getting into the blood, much of the fat and flesh producing elements stay in the intestines until they pass from the body as waste.

To correct this condition and to produce a healthy, normal amount of fat, the nutritive processes must be artificially supplied with the power which nature has denied them. This can probably best be accomplished by eating a Sargol tablet combination of six splendid assimilable agents. Taken with meals they mix with the food to turn the sugars and starches of what you have eaten into rich, ripe nourishment for the tissues and blood and its rapid effect has been in many cases reported. Remarkable gains of from ten to twenty-five pounds in a single month are by no means infrequent. Yet its action is perfectly and absolutely harmless. Sargol is sold by the Evans Drug Co. and W. A. Egan, 33 N. Third St. and other druggists everywhere and every package contains a guarantee of weight increase or money back.

NOTE—Sargol is recommended only as a flesh builder and while excellent results in cases of nervous indigestion, etc., have been reported care should be taken about using it unless a gain of weight is desired.

ADVANTAGES

In Depositing Your Money With The Buckeye State Building and Loan Company, Rankin Building, 22 West Gay Street, Columbus, Ohio.

1. SAFETY. All money deposited with this large and conservative company is loaned only on first mortgage on homes and farms, the safety of all mortgage loans. So carefully has this money been loaned that the company owns no real estate. — a record for conservatism not surpassed by any financial institution in Ohio. Five per cent paid on time deposits. Assets \$9,200,000.

True Secret of Keeping Youthful Looking

(The Beauty Seeker.)

"The real secret of keeping young-looking and beautiful," says a well-known hygienist, "is to keep the liver and bowels normally active. Without these requisites, poisonous waste products remain in the system, polluting the blood and lodging in various organs, the joints. One becomes flabby, obese, nervous, mentally sluggish, dull-eyed, writhed and salivary of face.

"But to get liver and bowels working as they ought, without producing any action, has been the problem. Fortunately, there is a prescription of unquestioned merit, which may now be had in convenient tablet form. Its value is due largely to an ingredient derived from the humble May apple, or its root, which has been called 'vegetable calomel.' There is no habit-forming constituent in 'vegetable calomel'—that's the name—and this use is not followed by weakness or exhaustion. On the contrary, these harmless, vegetable tablets tend to impart tone and elasticity to the relaxed intestinal wall. Bentanal tablets, which may be procured from any druggist, are worth will do—will prove a revelation to any constipated, liver-troubled person."

Chief Cause of Pimples, Blisters, Sallow Skin

(Message of Health.)

Unpleasant eruptions, pimples, blotches, sallow or muddy skin, usually are due to a sluggish liver, a constipated bowel—and a polluted blood stream as a consequence. How foolish in such cases to resort to outward applications, which are but a temporary relief, when the cause is internal, permanent results. If more people only knew it, there is a very simple remedy, to be found in any drug store, which is as effective as it is harmless and quick acting. It is an old formula, long recognized by the medical profession, which has been put in tablet form and at such small cost no one need now be deprived of its wonderful benefits.

"Bentanal tablets"—that's the name—are entirely vegetable and there's no habit-forming ingredient. You need only take one or two tablets three or four times a day to realize there's nothing else quite so good for the purpose. The action is so marked that you feel no need of anything, and instead of a weakening after-effect, you feel truly refreshed and invigorated. Bentanal tablets are not only the finest remedy known for constipation and torpid liver, but offer the safest, most sensible treatment for complexion blemishes of the character mentioned.

Great Demand for New Constipation Remedy

They say that the advent of the "Bentanal tablets" as a vegetable constipation remedy has resulted in an extraordinary demand for this remarkable product. It is a tendency to aid in bringing about with those afflicted with chronic constipation, who were quick to recognize its advantages over calomel and the usual laxatives.

Bentanal tablets, aside from their laxative, doubtless owe their success largely to a tendency to aid in bringing about natural functioning—instead of encouraging the "cathartic habit." Also, instead of the injurious membrane lining of the organs involved, they exert a healing influence. Instead of weakening, they add tone to the intestinal wall and they work so easily and gently, they are of course preferred on this account to the violently acting purgatives. Their responsiveness is another reason for the popularity of bentanal tablets. One need procure only a dime's worth and take one tablet upon retiring, to be convinced that the ideal remedy for constipation, torpid liver, and their many evil consequences is really bentanal tablets.

In Milady's Boudoir

By Gwen Sears

If you would have your finger nails well-kept for the weekly manicure in your boudoir, provide the curved scissors, orange stick file and chamois skin buffer, a bowl of hot water, polishing powder, some dioxogen and a small jar of the prepared pink paste which makes the finger tips rosy.

Hold the finger tips in the hot water for at least ten minutes to make the nails very soft and manageable and to soften the cuticle around their edges. Then carefully trim and file every nail into shape and patiently push back the cuticle at the base of the nail to reveal the half moon. Dip the end of the orange stick frequently into diluted dioxogen while doing this, to prevent any danger of infection and unpleasant inflammation should the skin happen to be broken at any point during the operation.

Finally comes the polishing. Use plenty of powder and apply the buffer briskly. When each nail shines like a jewel wash the hands again in soap and warm water, using a nail brush to remove all traces of the powder around the edge of the nails. After drying the hands carefully, rub the nails of each hand back and forth across the fleshy part of the palm of the other hand to restore a soft brilliancy. Touch each finger up slightly to the rosy salve and wipe dry with a bit of clean cloth.

Every day treat the hands to a good soap and water scrub, using the nailbrush thoroughly. Keep the cuticle pushed back with the blunt end of the orange stick and rub the nails briskly against the other palm, as described. Once, during the mid-week, use the buffer and polishing powder, and once a week go through the whole manicuring process. Thus should Milady's hands be kept in exquisite and always presentable condition with or without a professional manicurist or maid.

Every Day Etiquette

"When friends call to express their sympathy after a death, it is necessary for the person called upon to see the caller," asked Mrs. Brown, recently bereaved.

"No. One should ask to be excused if she is not sure of absolute composure," advised her friend.

HARMONY

Sunday services: 10 a. m., Sunday school; 11 a. m., preaching service; 7 p. m., preaching service. Mr. Blanchard P. Davis of Granville will occupy the pulpit next Sunday and the public is cordially invited.

Mr. and Mrs. Jacob Foust entertained at dinner last Sunday the following guests: Mr. and Mrs. F. P. White, Mr. and Mrs. Harvey Disbennett and daughter Indus, Mr. and Mrs. W. A. Whissen and children, Mrs. Minnie Overmire and daughter Thelma, Mr. and Mrs. W. L. White and children.

Mrs. Anna Sheldon will preach at Appleton Christian church next Sunday evening.

Mr. and Mrs. J. R. Haas and son Ray were guests of Mr. and Mrs. Ralph Haas, Sunday.

Mr. and Mrs. Harry Farmer and daughter Marcella of Galena, and Mr. and Mrs. Fred Williams and daughters Amanda and Grace of Croton, visited at the home of S. W. Haas and family, Sunday.

RUSSIA PROBABLY WILL DENOUNCE BULGARIAN TREASON.

(ASSOCIATED PRESS TELEGRAM)

Paris, Oct. 15.—Russia's intervention in the Balkans probably will be preceded by a manifesto issued by Emperor Nicholas as "Chief Protector" of all Slavs to the Bulgarians, denouncing what will be characterized as the "treason" of King Ferdinand in making common cause with the Austro-Germans, Russia's enemies. This manifesto, it is expected, will be followed immediately by definite action.

SERBIANS HOLD HEIGHTS.

London, Oct. 15.—A dispatch to the Times from Athens says the Serbians still hold the heights around Belgrade at a distance of 1 1/4 miles from the city. Serbian refugees are beginning to arrive at Saloniki, and the dispatch adds, railway communications have been cut near the Bulgarian frontier.

Says Simple Laxative Better Than Castor Oil

Case of Chronic Constipation Yields to Mild Laxative Compound.

Writing from The House of the Good Shepherd, at Sunnyside Ave., and 50th St., Seattle, where she is the guest of her life-long friend the Reverend Mother, Mrs. Mary Austin, widow of a wealthy San Franciscan, who lost everything in the fire of 1906, says she experienced speedy relief from the use of Dr. Caldwell's Syrup of Pepsin and that she found this gentle, pleasant-tasting laxative more effective than several doses of castor oil.

The active principles of certain laxative herbs are combined in Dr. Caldwell's Syrup of Pepsin to act on the eliminative organs in an easy, natural way, without griping or other discomfort. Its freedom from opiates or narcotic drug of every description, combined with its gentle action and positive effect, make it the ideal laxative for family use. Druggists everywhere sell it for fifty cents a bottle.

A bottle of Dr. Caldwell's Syrup

MRS. MARY AUSTIN.

Pepsin should be in every home for use when the occasion arises. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 454 Washington St., Monticello, Ill.

Your Boys and Girls

Some hints which are sure will be appreciated by many mothers are here given:

If baby persists in keeping his hands uncovered while riding in his buggy, fill a small hot water bag and tie it to the strip in front. It will keep his hands warm and comfortable.

For the rubber shoes, spring clothes pins will hold them together. But what is necessary and seldom at

hand is a shoe horn. By the use of it when putting on rubbers the mother's temper and fingers will be saved. Children should have individual laundry bags and be taught to put all soiled clothing in them as soon as taken off.

Not Shock Absorbers
"What's this?" asked the automobile owner as the deputy sheriff thrust a folded paper into his hand. "That," said the deputy, "is a new attachment for your car. I'm putting them on a great many of our finest machines this summer."—St. Louis Post-Dispatch.

Simple Way To End Dandruff

There is one sure way that has not failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

Personal

Commissioner and Mrs. Frank R. Dumm are attending the Lancaster fair today.

Commissioner and Mrs. Joseph H. Orr are the guests of relatives in Washington Courthouse, O.

Attorney and Mrs. J. W. Horner attended the production of "The Blue Bird" at the Southern theatre in Columbus last evening.

Short talk by comrade from Columbus.

Duet—Mrs. Blanch Hendershot and Mrs. Ollie Echelberry.

Closing doxology.

Read the Want Column tonight.

How to Treat Croup Externally

Rob Vick's "Vap-O-Bub" Salve will cover the throat and chest for a few minutes—then cover with a warm flannel cloth. Leave the covering loose around the neck so that the soothing medicated vapors arising may loosen the choking phlegm and ease the difficult breathing. One application at bedtime insures against a night attack. *See Sign, or \$1.00. At drug stores.*

"VAPORUS"

VICK'S Croup and SALVE

APPROVAL OF CONTRACT FOR NEW SUBWAY

BALTIMORE AND OHIO ROAD IS IN LINE AND PENNSY WILL FOLLOW

This Will Clear the Way for Preliminary Steps Toward the Construction.

Officials of the B. & O. railroad company have approved the contract for the construction of the subway and the instrument is now awaiting the approval of the officials of the Pennsylvania company before it is finally signed and in effect.

The contract was drawn up more than a month ago at a conference of representatives of the railroad companies interested, and city officials and was started on its rounds of the various railroad officials for their approval and signature.

It is understood that there will be no delay on the part of the Pennsylvania company in approving the contract and it is expected that this approval will be received in a few days.

This action and the signing of the contract will clear the way for the preliminary steps toward the construction of the subway. It will be necessary for the city and the railroads to condemn and acquire property and this probably will necessitate some court action. It is planned to have all this done before the winter is over. The contract provides that the actual construction work shall be started April 1.

VICTOR VICTOROLAS

Miss Elizabeth Cox

Representative of the Manufacturers of the Famous

Ladies' Home Journal Patterns

Will Be With Us Three Days

Saturday, Monday and Tuesday

OCTOBER 16, 18 AND 19th.

Miss Cox is a fashion expert. She thoroughly understands clothes and knows how to make them stylishly and fittingly.

We suggest that you talk with her. Let her show you how easily you may have a fashionable wardrobe. If you have ever had any trouble in cutting, fitting or making your own clothes, by all means talk with her. There are many radical changes in styles for the coming season and a visit with her will be most helpful to you.

COME AND SEE MISS COX IF YOU WANT TO GET AN IDEAL OF THE STYLES FOR THE COMING SEASON.

SHE HAS ALL THE LATEST "FASHION GOSSIP" RIGHT AT HER FINGER TIPS.

Just opened up a shipment of New Plaid and Striped Silk New Wool Serges, Poplins, Whipcords and Novelties

COMMUNITY SILVER.

These suits were the latest models and are of the very best materials and workmanship.

Suits That Were \$25 and \$35

Will be Sold at \$5.95

\$45 and \$50 Suits at \$10.00

This is an exceptional opportunity to buy a good serviceable suit at a ridiculously low price. The assortment contains nearly all sizes and colors.

BURNS SMOKE

Yes, it actually burns every particle of smoke in this stove. The result is just twice the heat. Smoke is nothing more than unburned coal. Why not use this unburned coal? You'll get the full benefit of your coal if you burn it in a

Globe Hot Blast Heater

This stove is certainly the greatest money saver you will ever meet. It heats a saving Bank "all hollow." It pays 50 per cent dividends every year.

You can burn any kind of coal in the

Globe Hot Blast

It has attractive, handsome nickel trimmings and is just the stove for your front parlor or dining room. Step in our store and let us explain to you how it works.

FLYING SQUADRON WILL TOUR COUNTY SUNDAY AFTERNOON, OCT. 17

(Political Advertisement.)

Promptly at 12:30 o'clock next Sunday, Oct. 17th, the Dry Flying Squadron will leave in five teams to tour of the county. Each team will have a quartet and four speakers. Any person who has an automobile who could take two speakers, please phone the information to Dry Headquarters. (Citizen, 1983; Bell, 295.) We may need you.

We hope every interested person who has an automobile will join one of these teams; bring your family and friends, and enjoy the afternoon with us. Each team will return by 5:30 o'clock in the evening. Already more than one hundred machines have reported that they will be in the squadron. Let's make it one hundred and fifty. Report in front of Dry Headquarters, corner of Church and Third, at 12:30 sharp.

J. H. MILLER,
Chairman of Dry Committee.

A Swift Uppercut.

"I see you have your arm in a sling," said the inquisitive passenger. "Broken, isn't it?"

"Yes, sir," responded the other passenger.

"Meet with an accident?"

"No; broke it while trying to pat myself on the back."

"Great Scott! What for?"

"For minding my own business."

Ram's Horn.

A Relic of Chickamauga.

One of the interesting things in the U. S. Grant post, No. 327, G. A. R., post room, of Brooklyn, is the altar, presented by William Berri. It is a glass case, in the center of which are the stumps of two trees taken from the battlefield of Chickamauga, and in each of these stumps there is embedded a large, unexploded shell.

Mr. and Mrs. Martin Scheffler of Union street, announce the approaching marriage of their youngest daughter, Miss Esther Scheffler, to Mr. Frank Fleming of Akron. The marriage will take place Nov. 24.

Having purchased a traveling man's sample line of LADIES' UNTRIMMED HATS at greatly reduced prices we will offer them at bargain prices Friday and Saturday, October 15 and 16.

CLOUSE & SCHAUWEKER,
42 Hudson Avenue.

READY TO GO TO LANCASTER REFORM FARM

Paul Gilmore, 13, and Samuel Sponseller, 13, both of Bucyrus, are being detained in juvenile court today until Judge Robins Hunter decides what shall be done with them.

Advice from Bucyrus state that one of the boys forged a check for \$18 and after having it cashed the lads with two other companions of their own age started on a sight seeing tour of the state. They reached Sandusky and two of the boys returned home while Gilmore and Sponseller came on to Newark to visit the grand parents of one of the boys.

The young lads arrived last Saturday and Sunday they started in search of adventure and passing the Plymouth Congregational church as two bicycles to the lake, which they mounted and rode away, while the owners were in attendance at Sunday school. They took the wheels to a dugout in southeast Newark where the stolen wheels were painted and after drying the boys used them in search of further adventure. They went to the Lyric theatre Tuesday evening and left the wheels along the curb. While the youthful Bucyrans were enjoying the pictures on the screen two unprincipled Newark youths came along and appropriated the wheels. Two other boys in the near vicinity saw them and gave chase, the Newark lads leaving their mounts in the high weeds along Harrison street. The wheels were recovered and taken to the police station and when the Crawford county visitors called for them Officer John Dwyer recognized in one of them an old offender who only a few months ago stole the wheel of Cashier Warren Suter of the Franklin National bank, but who after recovering his wheel did not care to prosecute the boy and he was sent to his home at Bucyrus after promising to be good. He did not keep his word and a letter received from the Crawford county capital today by Officer Dwyer, from the Probation officer of that place asks if they, the Licking officials won't please send the boys to Lancaster. Their wish will probably be complied with.

Beginning Saturday, October 16, and continuing for three months, the Tea Room of MacDonald's Shop for Women, 50 North High street, Columbus, will be in charge of a committee composed of ladies of the Board of Managers of the Children's Hospital. A noon luncheon and afternoon tea will be served each day. The proceeds will be applied toward the maintenance of the hospital. The ladies of Newark are most cordially invited to patronize the Tea Room at any time they may be in Columbus.

At Schiff's**

THESE ARE THE WORDS WOMEN ARE PASSING TO THEIR FRIENDS.

The prestige of this store has been boosted tremendously this season.

Not only are women finding here just what they want, SOMETHING FASHIONABLE, SOMETHING DISTINCTIVE—but also big values that stand out as never before.

For instance:—We are showing

A Beautiful Suit

IT IS A REMARKABLE SUIT FOR

\$22.50

Remarkable because the broadcloth is of such good quality and the lining is soft and fine; because the workmanship is excellent and because the fur trimming is used so liberally, all the way around the bottom of the coat and on the neck.

Every woman will want this suit, it is a wonderful suit for \$22.50

Then we are showing—

Clever Suits

Real good looking suits at—

\$15.00

So different from the \$15.00 suits—and we are showing suits—"different suits"—at \$25.00 and up to \$35.00.

BEATRICE MILDRED CUMMINGS.
Five months old daughter of Mr. and Mrs. Clyde Cummings, 183 Wehrle avenue, Newark.

Pacific were lower by material fractions to 1 1/2 points while specialties in the war group, such as Baldwin Locomotive, Continental Can and Republic Steel traded 1 to almost 3 points. These losses were partly offset by moderate gains in Westinghouse, Lackawanna Steel, American Woolen and American Can while Porto Rico Sugar rose 10 points to the new high record of 130. Secondary prices showed general improvement.

Come and See
The Many Beautiful Dresses

We are showing dresses suitable for every occasion to be found here. For street, afternoon affairs and dainty dresses for dancing purposes. In the evening dresses are beautiful gowns in all the delicate colors, such as pink, blue, yellow, green, etc., fashioned from silk, chiffon, fancy laces and ribbons, while some have little floral sprays scattered around yoke and belt. Also many beautiful styles in silk dresses suitable for general wear, in crepes, tulle and poplin. In the wool dresses are chubies, serges, and fancy weaves. Among the new styles which are proving popular, are the combination dresses, which are made of either wool with silk trimmings, or the foundation of silk with trimmings of wool.

It's time for you to get acquainted with the new styles.

You Will Never
Have Cause
For Regret
If You Wear

"Mérode"
(Hand-Finished)
Underwear.

It's made for both women and children. It has all the features that characterize it as the best underwear. Fabrics of the finest combed cotton, fleeced cotton, silk and wool, wool and merino are woven into many weights, suitable for any kind of weather. Another of the prominent features of "Mérode" underwear is the great variety of shapes. In "Mérode" underwear, vests, drawers, tights, corset covers, and union suits are made in both regular and out-sizes in all weights, and every shape, suitable for slender, stout or medium forms.

It is here now in the correct weights for women and children.

Fine Comforters \$2.50 and \$3 Each

\$2.50 will buy a heavy silkoline comforter, with wide stitched borders in a plain color to match the design in the silkoline, and filled with fine white corded cotton. Dainty designs for you to select from in pink, blue and yellow.

\$3.00 will buy a comforter filled with snow white cotton and covered with fine silk mull, in small designs, with wide band borders in plain colors, in rose, pink, blue, yellow and lavender. Before you purchase see our showing at 2.50 and \$3.00 ea.

Last Week
of The Sale of
Hair Switches at
a Great Bargain
Regular \$3 Grade
For \$1.95

An extraordinary offering—28-inch switches in every imaginable shade except gray. The hair is of fine quality, soft and lustrous—and with a natural wave. You can dress your hair in any of the newest styles with the aid of one of these switches. Better take advantage of this sale, as you'll not often have the opportunity to purchase a wavy switch of equal merit at so low a price.

THORNVILLE FAIR,
OCTOBER 21-22-23,
WILL BE HUMMER

Thornville is preparing for its second annual agricultural fair to be held Oct. 21, 22 and 23.

The fair will be held on the public square and adjoining streets of the village and will consist of an exhibition of farm and domestic products, farm implements, horses, dairy and beef cattle, sheep, hogs and poultry, together with a varied program of free entertainment and amusement features. No "takes" of any kind will be permitted.

The board of director consists of H. H. Edmund, president; William Neel, vice president; George E. Schenk, treasurer; Allen Alspach, secretary, and W. E. Zollinger, Adam Heiser, M. C. Harter, Elmer Boring, A. A. Yost, F. Z. Neel and C. D. Orr.

Premiums will be awarded for horses, cattle, hogs, sheep, grain, fruit, vegetables, poultry, bread, pie, cake, fancy work, etc. There will be a parade on Thursday with cash prizes for the best decorated floats and cash prizes for the best imitations of Charlie Chaplin. A program of athletic sports will be given Friday and Saturday will be school and grange day.

TRIP OF CHAMPS
IS CALLED OFF;
MONEY DIVIDED

Philadelphia, Oct. 15.—The proposed trip to the Pacific coast of the world's champion Red Sox and the Philadelphia National league pennant winners was declared off yesterday by Robert B. McRoy, representing the national baseball commission.

Inability to come to an agreement on a financial arrangement is the cause for the abandonment of the trip.

The Courts

The Market Case.
In the case of George Weisant, et al vs. The People's Market Co., the court adjourned the hearing until next Wednesday. Counsel for both sides, together with Court Stenographer James R. Cooper, left today for Thornville to take the deposition of C. L. Diltz, a witness who is too ill to come to court. It is problematical to state when the case will end but the attorneys hope to finish next week.

Damage Case.
Hattie McDonald has begun a damage suit in the court of common pleas against Henderson Brothers, asking for damages in the sum of \$1400. The petition recites that on Sept. 15, 1915, the defendants had excavated a trench or ditch at the intersection of Mechanic street and an alley in Utica, O., and that they left it unguarded; the plaintiff alleges that she was walking along after dark and fell into the excavation, badly injuring herself and that she sustained bruises and one of her legs was punctured by some sharp object. The plaintiff states that she was made sick and ill and has since suffered great pain.

ONE OF BEST PAID
STARS IN FILMDOM

Margarita Fischer.

Margarita Fischer, whose popularity is best attested by the fact that she is one of the highest salaried stars in filmdom, did not win her standing by means of sensational over-night advertising, but by steady advancement due to rare ability backed by personal charm and persistent application.

One-seventh-hundredth part of a grain of radium will thoroughly fertilize a ton of soil, and cause grain to grow with great rapidity. Where this experiment has been tried, it has been noticed that all the leaves become very dark. Radishes and carrots raised in this soil will grow to six times their usual weight.

So sensitive is electrical apparatus invented by a French scientist that it will detect the presence of one part of bichromate of potash in 200,000,000 parts of water.

More New Waists, New Tailored Skirts and New Children's Coats
